CRICUT IMPERSONATION WARNING · WRONG-PRODUCT PURCHASES AND POLICY MISMATCHES · CRAFTING AND DESIGN SOFTWARE

Suspected Cricut scams: six apps and their Pakistan links.

Six independent Mac apps put Cricut or Design Space in their names alongside familiar green-and-white branding and cutting-machine imagery; buyers of two report paying while believing they were getting Cricut's official software. The diagram identifies all six accounts: two disclose Pakistan addresses to Apple, while WIZ and Haroon have further Pakistan business or support-page links.

Apple developer accounts publishing these six Cricut-branded apps: **Samia Asif · 1697101565** · **WIZ Tech · 1834574019** · **Haroon Ahmad · 1829946041** · **Abdul Hadi · 1843586331** · **Syed Waqas Arshad · 1767790421** · **laiba amir · 1895256522**

Who publishes the six apps? Follow the account links.

Exact Apple account-to-app links, original app icons and four related craft products. Solid links mean Apple artist ID matches. Shared visual branding and city are not common ownership. E7/E32/E35/E34/E36/E33/E37. WIZ's Pakistan support/directory trail and Haroon's linked-policy country are qualified separately from Apple trader addresses. E40/E65/E67. Signing Team IDs come from the six validated supplied packages, E71/E72. Different signing teams are not treated as proof of different ultimate owners.

Each green card is a different Apple developer account. The arrow connects that account to its app, using Apple's own developer ID. The smaller icons show more craft apps on the same account. The country labels distinguish Apple trader addresses from support-site clues.

The supplied app files confirm six valid signatures with six different signing Team IDs, shown in the cards. Each app repeats its own support or policy trail. No common controller or additional Apple account was established.

VISUAL EVIDENCE

Familiar Cricut branding. Different sellers.

Original artwork: WIZ puts the Cricut wordmark in its icon; Haroon uses a C with antenna-like leaves. Other comparisons below preserve the differences. These are current third-party icons versus Cricut's current official reference.

Independent · WIZ Tech

The icon places the Cricut wordmark below smaller "Designs for" wording. The first promotion also shows the wordmark and a Cricut cutting machine. This is the clearest reproduced-brand icon in the set. E7.

Green C with antenna-like leaves and a Cricut-first product title. It is not pixel-identical to the current official wordmark icon. The current rendered listing visibly leads with an independence disclaimer; the API/source snapshot places a similar disclaimer later. Both are retained alongside user confusion reports. E7.

People say they paid believing these were Cricut’s apps.

Samia Asif’s Designs for Cricut Maker has a concrete wrong-product purchase complaint: the 6 June 2025 reviewer says lifetime access was bought under the impression that the application was genuine Cricut. A 9 January 2026 review also describes finding it when searching for Cricut Design Space and requesting a refund after buying lifetime access. These are reports from buyers, not purchases reproduced by this investigation.

Haroon Ahmad’s Cricut Design & Craft Space has separate 26 October 2026 reviews saying they expected a Cricut product, and a 19 September review describing a purchase presented as official. A generic low-value review in the supplied analysis is not the only evidence: the fresh exact-ID review feed contains these explicit identity-confusion complaints.

The Samia listing also displays a positive review and the developer’s reply that it is independent. The six apps sell design assets or editing tools; that can be legitimate. The warning is the combined Cricut-led identity and paid wrong-product experiences, not the existence of a subscription or every use of “for Cricut”.

Not What I Expected
1/5 stars · 2025-12-25 · MUWP · US App Store
I have not been able to use the print from this app because it does not stay connected to my Bluetooth. I have updated my computer and unplugged my Cricut several times. This has been a waste of my money, wish I could get a refund. So disappointed.

Not a Ginuine Cricut App!!!

I feel like I have been scammmmmed!!! I just found out that this is not even a legit Cricut app. Customers should be made aware of this ahead of time. I am having such a hard time finding my way around this app, and to top it all off, I paid for the lifetime access with the impression that this was a ginuine application. I want my money back!!! Cricut has been notified of this injustice and will be passing this along to their fraud department.

Accidentally downloaded this instead of the Cricut Design Space. That's not bad, however, it forced me to forcibly shut down my computer. It absolutely gave me a scammy vibe from the outset. Any reputable company should allow you to exit from operation of its app, but this one does not.

WHAT YOU NEED TO KNOW

The Cricut identity is prominent. The independent seller and the purchase being offered must be just as clear.

01

Cricut-led identities can sell the wrong product.

All six apps foreground Cricut or Design Space. Their original icons and promotions show distinct degrees of similarity. WIZ reproduces the wordmark in its icon, while other icons are visibly different. Samia and Haroon reviews explicitly report mistaking independent products for Cricut.

Current Apple pages, original marketing, official artwork and exact-ID review feeds.

E7 E8 E50 E52

02

The country evidence is app-specific.

Abdul Hadi and Syed Waqas Arshad declare Faisalabad, Pakistan in Apple DE/IE. Haroon’s listing-linked legal pages state Pakistan but name another product. WIZ has a +92 support contact and a reporter-supplied D&B record in Islamabad, D-U-N-S 753239350, whose exact legal-entity match remains pending. Samia and Laiba’s checked support pages do not disclose a country.

Current Apple provider panels and linked legal documents.

E25 E28 E40 E65 E67

03

Legal pages contradict the product story.

Haroon links AI Video Generator documents, Syed links a watch-face policy, WIZ describes face editing, and Laiba’s policy says no AI despite AI marketing. Hadi discloses linked data; Samia scopes external processors to other apps. These differences are preserved.

WHAT IT COSTS

Weekly charges and separate purchases from Cricut.

Current displayed US and Irish purchase options; no checkout or benefit equivalence independently tested. WIZ monthly and yearly amounts are shown exactly as recorded. See the estimated yearly-cost comparison below. E14/E17/E20/E23/E26/E29.

A small weekly price adds up.

At unchanged rates, $4.99 weekly is an estimated $260.19 yearly; $6.99 weekly is an estimated $364.48 yearly. The separately listed yearly options range from $29.99 to $49.99.

Estimated yearly amounts use 365 days ÷ 7 at the displayed weekly rate. Actual billing dates, cancellation and plan benefits affect what a customer pays. All prices remain storefront-specific.

WIZ Tech has Craft Maker for DIY Projects (6754156189); Abdul Hadi has Designs for Cut Machines (6758765170); Syed Waqas Arshad has Design Studio For Cut-Machines (6746750298); laiba amir has Design Space for Editable SVG (6763308561). Apple places each under its corresponding main account. These are four additional product IDs, not extra developer accounts.

The Hadi and Syed descriptions market Cricut-oriented design libraries and retain independence disclaimers. Laiba's iOS bundle has the same com.cricut.design.space.la family as its Mac product. A shared naming prefix and same Apple artist ID support a platform-family connection, not a claim that a binary was independently tested.

Syed's wider catalog also contains Grammar Checker - Rephraser. Its public release notes claim Grammarly-powered tools, a separate brand claim worth checking. The phrase is not proof of a licence, integration or fraud; this report does not invent a Grammarly icon-copying verdict.

The expanded search found more products, not a verified seventh account.

The Apple account check was extended beyond the US to the UK, Ireland and Pakistan. WIZ Tech returns one extra product in UK/Ireland: Brilliant :Solve Math Problems (6758695670). Its study app6758695071 is named Knotes in the US and Knowt in those other storefronts, while retaining the same bundle ID. Those are regional listing differences within one account, not two developers or proof of a change date.

A historical indexed Apple record for Trading Charts View & Insight (6799067665) names Abdul Hadi and uses the exact Magic Apps legal pages. The current exact lookups do not return the product, and its historical artist ID was not recovered. This is a useful dated policy-association lead; it is not labelled as a confirmed second account or an Apple fraud ban.

The exact support mailboxes, Google Sites/TermsFeed URLs, LaibaFam and WIZ contact domains were checked for use by other publishers. The public WordPress author trail remains Samia's own site. These checks did not establish an additional Apple account with a verified shared controller. Magic Apps' reference to associated developer accounts remains unnamed; unrelated companies with that generic name were excluded.

The WIZ contact domain supplies a +92 business telephone and retains course/template placeholder copy; its HTTPS certificate check failed here. The reporter subsequently supplied a D&B UPIK result placing WIZ TECH in Islamabad, Pakistan (E67). This strengthens the Pakistan research trail, while the full legal-entity match to the Apple seller remains to be reproduced. Template testimonial names are not treated as company officers.

Contact-domain site found through WIZ's linked terms. The visible courses retain unedited template copy; no listed testimonial person is treated as a company director. E65.

What the six supplied app files reveal.

All six supplied packages match the examined apps by bundle ID, an internal app identifier. Every package passes an on-disk code-signature check, and each has a different Apple Team ID: the identifier of the team that signed it. These checks strengthen the app-to-publisher records. They do not establish that the six teams have a common owner, or that different teams could not share a contractor.

The code repeats each app's own support or privacy trail: WIZ's legal pages and support domain; Haroon's two TermsFeed documents; Magic Apps and Abdul Hadi's contact; Syed's TechTribe contact and legal pages; LaibaFam's domain; and Samia's WordPress site and support contact. No seventh Apple account is identified by these exact contacts or by the earlier signing records checked in this project.

The inspected Amazon storage names are different: heatdesigns-wiz for WIZ, astheticdesigns for Haroon, designspace for Samia and cricut-apps in Laiba's configuration. Amazon, Dropbox or the same AI provider being mentioned does not establish a shared customer account. No embedded credential was used, no cloud account was accessed and no network behaviour of the apps was tested.

Laiba and Syed use Flutter, a widely used app-building framework. Their byte-identical ink_sparkle.frag file is a standard Flutter visual effect, not a distinctive publisher resource. No exact cross-app pixel match was found among 321 decoded catalog and loose raster-image resources. Small catalog-record digest coincidences were not treated as matching app artwork; the actual rendered images were compared.

The binaries provide no verified country for Samia or Laiba. Local build-folder names, third-party server regions and framework names are not business-location evidence. The package versions below are read from the supplied files and remain separate from the earlier captured listing versions and names; a different internal display name is not a dated rebranding event.

Laiba's package includes a cloud-settings file with non-empty access-key and secret-key fields. Those values were retained privately and never used or checked. Their validity and permissions are unknown; their presence does not identify another developer account or establish fraud.

Magic Apps' policy mentions associated developer accounts but does not name them. The two Faisalabad addresses, similar descriptions and common software tools remain research leads; no common company owner, shared signing identity or shared private service account was established across all six.

Pakistan: two Apple trader addresses and two further support-site trails.

Apple’s Germany and Ireland pages for Abdul Hadi and Syed Waqas Arshad both display Faisalabad, Pakistan. Their trader names and contact details match their respective product-policy pages. These are direct commercial disclosures for the examined apps.

WIZ Tech: the reporter supplied a Dun & Bradstreet UPIK result naming WIZ TECH, D-U-N-S 753239350, at Naval Enc Rage House Islamabad, 44000 Pakistan. WIZ's listing-linked terms give support@wiztec.co; the matching contact website independently shows a +92 business telephone. Together these are a specific Pakistan association. The supplied UPIK result could not be reproduced independently because the platform presented an anti-bot check, and its shortened company name has not yet been matched to the full Apple legal seller. It is therefore shown as a supplied directory record, rather than a verified Apple trader address.

Haroon Ahmad: both linked TermsFeed documents explicitly name Pakistan as their country. They also describe AI Video Generator instead of the craft app. This is a seller-linked Pakistan declaration with a product-document mismatch; no registered street address is supplied there.

Samia Asif and Laiba Amir were checked further across their entire current Apple catalogs: eight Samia apps and two Laiba apps, in Germany and Ireland. Nineteen provider pages loaded and showed non-trader statements without a business address; one fresh Samia Ireland request was rate-limited. Samia's current WordPress policy/terms, Laiba's two product policies and the LaibaFam homepage do not state a business country. The LaibaFam domain registration identifies a privacy proxy, not the seller's country. A 2024 Samia policy capture exists in the archive index, but its content could not be retrieved, so it is not used as a country declaration. Their country remains unconfirmed. Static inspection of both supplied app packages likewise yielded no verified business country; their original support trails match the published sites. E71/E73/E77.

Country evidence belongs to the exact app and seller

Seller	Product / app ID	Country	What the source proves
Samia Asif	Designs for Cricut Maker · 6466179127	Unknown	Apple DE and IE show a non-trader statement and no app-specific registered business country. A name, website host or another account's city is not used as country evidence.
WIZ Tech	Craft Space for Cricut Maker · 6751310935	Pakistan association; registry match pending	Reporter-supplied D&B UPIK: WIZ TECH, D-U-N-S 753239350, Naval Enc Rage House Islamabad, 44000 Pakistan. Matching support domain has a +92 telephone. Supplied directory result and exact Apple legal-entity match not independently reproduced.
Haroon Ahmad	Cricut Design & Craft Space · 6756916450	Pakistan in linked policy	Both listing-linked TermsFeed documents state Country: Pakistan, but name AI Video Generator instead of this craft product. Registered business address remains unverified.
Abdul Hadi	Cricut Design Studio & Fonts · 6756176875	Pakistan	Apple DE and IE identify this exact seller as a trader in Faisalabad, Pakistan.
Syed Waqas Arshad	DIY Design Studio For Cricut · 6741094003	Pakistan	Apple DE and IE identify this exact seller as a trader in Faisalabad, Pakistan.
laiba amir	Design Space & Font for Cricut · 6763307411	Unknown	Apple DE and IE show a non-trader statement and no app-specific registered business country. A name, website host or another account's city is not used as country evidence.

The privacy pages do not consistently describe the products being sold.

Haroon: the craft app links to a TermsFeed policy and terms for AI Video Generator. Apple says Data Not Collected, while that policy describes automatic usage, IP and device data. Users are not given a consistent product-specific explanation.

Laiba: Apple says Data Not Collected and the description promotes AI generation. The linked policy describes IP/usage collection and Firebase Crashlytics, and says the app does not use AI. These published accounts conflict; no SDK, network traffic or actual AI backend was tested.

Syed: the craft app links to a TechTribe policy about an ad-supported watch-face app, with identifiers, log data and AdMob. Its Apple label discloses unlinked User Content, not no data. WIZ's generic page describes face-editing and cloud media processing rather than identifying the craft product. Both should explain which statements apply to the actual craft app.

Abdul Hadi's Apple label already discloses linked data, and Magic Apps' broad policy describes AI processing and possible collection. Samia's updated policy explicitly assigns OpenAI and CloudConvert to other named apps in her catalog; those statements are not presented as proof that her Cricut design app transmits craft files.

Definitions

For the purposes of this Privacy Policy:

- **Account** means a unique account created for You to access our Service or parts of our Service.
- **Affiliate** means an entity that controls, is controlled by, or is under common control with a party, where "control" means ownership of 50% or more of the shares, equity interest or other securities entitled to vote for election of directors or other managing authority.
- **Application** refers to AI Video Generator, the software program provided by the Company.
- **Company** (referred to as either "the Company", "We", "Us" or "Our" in this Agreement) refers to AI Video Generator.
- **Country** refers to: Pakistan
- **Device** means any device that can access the Service such as a computer, a cell phone or a digital tablet.
- **Personal Data** is any information that relates to an identified or identifiable individual.
- **Service** refers to the Application.
- **Service Provider** means any natural or legal person who processes the data on behalf of the Company. It refers to third-party companies or individuals employed by the Company to facilitate the Service, to provide the Service on behalf of the Company, to perform services related to the Service or to assist the Company in analyzing how the Service is used.
- **Usage Data** refers to data collected automatically, either generated by the use of the Service or from the Service infrastructure itself (for example, the duration of a page visit).
- **You** means the individual accessing or using the Service, or the company, or other legal entity on behalf of which such individual is accessing or using the Service, as applicable.

Hosted policies and brand-heavy storefronts repeat across the accounts.

Four primary apps link privacy pages hosted on Google Sites: WIZ, Abdul Hadi, Laiba and Syed. Samia uses WordPress.com; Haroon uses TermsFeed. Apple lists no separate Developer Website for the six main Mac products. These are concrete hosting observations, not a claim that all hosted pages are fraudulent or that the developers paid nothing.

The pattern matters because users face prominent Cricut branding and recurring paid plans while several legal pages name another product or contradict the advertised features. The evidence is the published mismatch, not the price of the website.

WIZ's terms give a support mailbox at wiztec.co; both direct domain variants failed certificate-hostname checks here. An indexed site carrying the same business contact is a lead, not verified legal-entity ownership. Laiba's product policy uses the LaibaFam domain and its home page presents a generic software/contact site. The other accounts' published contact channels differ; no shared inbox was established between the six.

Design assets are not the same purchase as Cricut's cutting software.

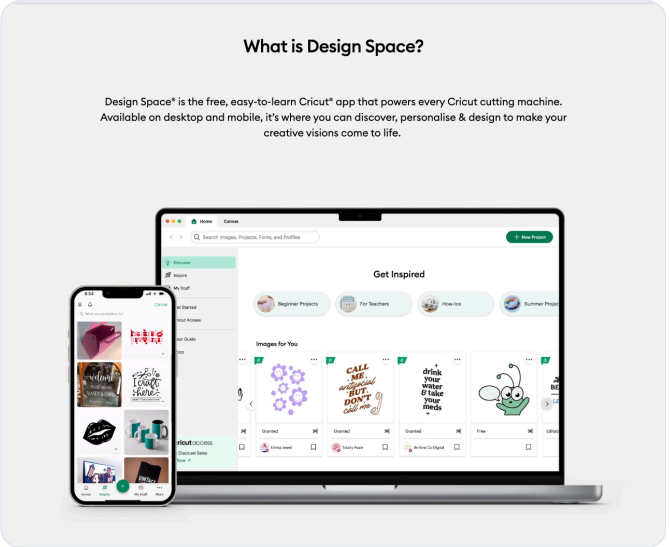

Cricut's own page sends Mac and Windows users to design.cricut.com. It separately links the official iPhone/iPad and Android apps. The company-published Mac installation illustration below shows the same Cricut wordmark identity as the official current mobile icon.

Design Space is free to download; Cricut Access is an optional paid library/features subscription. Buying one of these third-party template or AI apps is a separate purchase and should not be mistaken for activating Cricut's machine software or an existing Cricut membership.

The six independent listings describe design assets, templates, AI images or editing/export tools. SVG means a vector image file that can be imported into compatible design software. That can be useful content without being Cricut's official machine-control software. No app was installed, no machine paired and no payment or refund outcome independently reproduced.

E9/E8/E10

Version notes show product evolution, not a proven review-bypass sequence.

WIZ's old update notes use Visual Studio in 2025/January 2026, Heat Designs on 27 January 2026 and Craft Space from June 2026. Samia's 18 September 2023 notes already say Design Space for Cricut. Syed's 2025 notes add Cricut designs and an editing canvas. These are recorded release-note texts; they do not by themselves prove those were the app's exact displayed titles or icons on those dates.

The supplied dossiers contain same-day store/archive records from 17 November 2026. The six printed archive URLs replay, but no earlier usable icon/name sequence was recovered from this investigation's CDX queries. Successful empty responses and failed/time-out searches are retained separately. No generic launch, hidden rebrand or intentional App Review evasion is invented.

The report therefore compares current original artwork against current official Cricut references. Apple admitted these third-party listings to its store; the evidence here establishes the public branding and user confusion, not the internal review process.

E60/E5/E1/E2/E3/E6/E4

Apple should review the misleading identity and document mismatches.

The central assessment is misleading presentation: Cricut/Design Space wording, familiar green-and-white identities and machine imagery can make design-library apps look like Cricut's own software. Wrong-product purchase reports from two accounts show a concrete consumer consequence. The visual evidence is not identical for all six, so the comparison captions preserve the differences.

Independence disclaimers are included in WIZ, Haroon, Abdul Hadi, Samia and Syed's listing text; no such disclaimer was found in Laiba's checked description. A disclaimer is relevant evidence and is preserved. It does not make the observed first impression or buyer confusion disappear, and this report does not claim a legal ruling about its effect.

The provisions below are editorial compliance assessments for Apple to investigate. No private trademark licence, court decision, confirmed fraud finding or Apple account-termination notice was recovered.

Observed conduct and the specific Apple rules implicated

Rule	Why it is relevant here
2.3 / 2.3.1 · Accurate Metadata	Brand-led names and presentation should accurately identify an independent design/asset product.
2.3.7 · Distinctive names / trademark keywords	Cricut and Design Space terms foregrounded in names; assess the full presentation rather than treating every compatibility phrase as forbidden.
4.1(a–c) · Copycats / impersonation / brand identity	Original comparisons, wordmark use, C variants and direct wrong-product complaints warrant review. A green icon alone is insufficient.
5.2.1 · Intellectual Property	Check reproduced Cricut branding and whether required rights exist; no private licence audit was possible.
5.1.1(i) · Privacy Policies	Wrong-product legal documents, no-data versus collection statements, and AI versus no-AI claims require product-specific clarification.

Account membership is verified by Apple artist IDs. The six supplied Mac apps receive detailed review, and four companion craft products receive a narrower comparison. The remaining utilities and AI/design apps are listed for identification, with no blanket fraud verdict. Each link below opens the exact numeric product ID.

The table counts the34 returned US products. One additional WIZ product is returned in Ireland/UK and listed in the expanded-account section. The historical trading lead is not part of the current count.

A weekly plan can cost far more over a year.

Five US listings show $4.99 weekly; Haroon shows $6.99. At unchanged rates these correspond to estimated yearly costs of $260.19 and $364.48. The separately listed yearly offers are much lower. This is an estimate using a 365-day year; actual charge counts depend on billing dates and cancellation.

Prices are displayed purchase options, not verified charges or proof that every plan unlocks identical features. Samia's reported lifetime purchase is a buyer's account; the investigation made no purchase. The monthly/yearly WIZ labels both show $29.99 in US and €34.99 in Ireland, and Haroon's storefront amounts differ substantially; the recorded labels and prices are preserved rather than silently corrected.

The records behind this report.

Authored investigation followed by all 75 pages of the six supplied analyses. Original icons, all 33 current primary Mac promotions, official Cricut references, native loaded page captures and an account diagram are included. Sources retain visible names/contact fields and printed transcribed hashes. No app installed, machine paired, payment made, private licence inspected or developer contacted. Expanded public checks include four countries, a verified WIZ regional product and a separately qualified historical Magic Apps policy-sharing lead; no seventh Apple publisher account was established.

E38 / WIZ Tech · shared policy about face editing

The linked Google Sites policy is dated 14 March 2025 and describes facial photo/video editing and temporary Firebase/AWS processing, not a clearly scoped cut-file product. The exact support@wiztec.co contact is in WIZ's linked terms. The public HTTP site identifies Wiz Tech Limited, repeats the business contact, uses a +92 business telephone and retains course/template/testimonial placeholders. Direct HTTPS attempts failed certificate common-name/hostname checks. This is a contact-site association, not a verified registry match to WIZ TECH (SMC-PRIVATE) LIMITED or a legal-owner finding. Original requested URL: http://www.wiztec.co/. The public source was reachable over HTTP; HTTPS was separately checked and failed certificate validation.

E66 / Historical indexed Apple trading product with Magic Apps policies

Search-indexed Apple page for Trading Charts View & Insight 6799067665 names Abdul Hadi and gives the exact same Magic Apps privacy and terms URLs. Current US/KE lookups return zero; direct KE page was rate-limited in raw fetch and returned404 in the browser/search fetch. The exact historical artist ID, icon, bundle and company were not recovered. This is a qualified historical policy/product association, not proof of a separate Apple account.

E67 / Reporter-supplied D&B UPIK result for WIZ TECH: Islamabad, Pakistan

The reporter supplied the UPIK result WIZ TECH, D-U-N-S 753239350, business address Naval Enc Rage House Islamabad, 44000 Pakistan, and identified the D&B UPIK platform as its source. The platform search form was readable, but an independent browser lookup encountered an anti-bot verification page. The result and exact match to Apple seller WIZ TECH (SMC-PRIVATE) LIMITED have not been independently reproduced. WIZ-linked terms and the matching support domain independently provide a +92 business contact (E39/E65). This is a Pakistan-associated business lead, not a verified Apple trader address or proof about the other five sellers.

E68 / Expanded EU provider check: all eight Samia and both Laiba apps

Twenty exact named product-page requests across Germany/Ireland: nineteen HTTP 200 pages all display non-trader statements without a registered address; the fresh Samia main-app Ireland request returned 429. Exact Apple artist IDs and existing app inventory retain which products belong to Samia 1697101565 and Laiba 1895256522. These observations do not identify a country or a seventh publisher.

E69 / LaibaFam registrar record discloses a privacy proxy, not the app seller

GoDaddy's public RDAP record for laibafam.com lists Registration Private / Domains By Proxy, LLC. The displayed US proxy location and registrar are not attributed to Laiba Amir. No app seller address or Pakistan country was obtained from this record.

E70 / Samia's older policy: archive index recovered, content unavailable

The archive index lists a successful historical capture of the exact WordPress privacy URL at 20240502152217, and a current capture. The historical replay returned 429 in the raw request and was inaccessible through the web reader. The existence of the capture is recorded; its unretrieved contents are not quoted or used as proof of country. The current policy and terms identify the publisher and support mailbox but no business country.

E71 / Case 3 supplied archive: six app packages, exact bundle IDs and executable hashes

Archive.zip was supplied privately in Case 3. SHA-256 independently calculated over the original 150070699-byte archive. Six app bundles match the six primary products by their signed bundle identifiers. Static inspection only: no app launched or installed; local receipts and filesystem resource-fork wrappers were excluded from analysis and delivery. Original archive is kept private.

SHA-256: f24f151fa51bf914e04aa22c97de60fe83e7caf8bb7abb36d05f756876436a52

E72 / Six validated signatures and six distinct Apple signing Team IDs

On-disk strict signature validation succeeded for all six bundles, including every included architecture after preserving original internal framework symlinks. codesign metadata and entitlements agree on: WIZ MVS4VRGTFD; Haroon 5LNTPW8AYP; Laiba 32CQLCRPK5; Abdul Hadi WC545FNCAB; Syed 69CMQLR868; Samia 6Y89893HG6. All six main executables have different independently calculated SHA-256 values. The shared Apple certificate-authority chain is normal store distribution, not a common-owner indicator. Private redacted inspection summary hash below.

`SHA-256: b90c8e4537af1e69011500cb6b80508f5705c1710b37e850b15d306aefe15a60`

E73 / Embedded support contacts, legal URLs and service references

Native executable strings, app-owned resources and both Flutter App.framework payloads were inspected. The support/legal indicators corroborate the respective six published sites. WIZ, Haroon and Samia contain distinct Amazon storage endpoint names; Laiba's own environment file supplies a fourth bucket name. Hadi and Syed both reference the public DeepAI provider but no shared provider account was established. Static references are not claims of observed traffic or verified backend functionality.

E74 / Cross-app resource and decoded-image comparison

App-owned regular-file hashes and compiled asset catalogs were compared, excluding signatures, receipts, generic dependency bundles and fonts. The only exact shared non-font regular asset between Laiba and Syed is the standard Flutter ink_sparkle.frag visual-effect file, independently classified using E75. Across 321 decoded catalog/loose PNG, JPEG and ICNS resources, no cross-app pixel-equality match was found. This does not rule out modified artwork, shared source code or a contractor.

`SHA-256: 542bd8f610f5c39225d7de221b1b40f2214565f67e8f1d365485706dfcc102f6`

E75 / Official Flutter framework source for the shared visual effect

The official Flutter source tree contains ink_sparkle.frag under its Material visual-effect shaders. The byte-identical compiled resource in Laiba and Syed's packages is classified as a framework component, not evidence of common app ownership.

Open source ↗

E76 / Laiba cloud configuration: secret values withheld and never used

The supplied Laiba package contains an app-owned .env file in its Flutter assets. It specifies bucket cricut-apps and region us-east-2, plus non-empty AWS_ACCESS_KEY_ID and AWS_SECRET_ACCESS_KEY fields. Only redacted field-presence and storage-name observations are included; no key value is published, authenticated against a service, or tested for validity or permissions. This is not country or shared-owner proof.

`SHA-256: c1288bdb6d7083124126147885e2a69f0af5ec49ef20012234556f4ed97c43f9`

E77 / Static account/country follow-up: no new verified owner or country

All six signing Team IDs were searched against retained signing/inspection records for earlier project cases: no additional matching team was found. Exact support/domain and relative app resources corroborate the known accounts. No verified country attribution for Samia or Laiba, shared private service account or seventh Apple developer account was established. Shared frameworks, standard strings and public provider endpoints were excluded as ownership evidence.

E78 / Apple's explanation of signing identifiers and Team IDs

Apple explains that the team identifier specifies the development team that signed code. The report uses the exact extracted Team IDs to distinguish signing identities while keeping ultimate ownership and shared-contractor questions separate.

Effective Date: March 14, 2025

At **Wiz Tech** ("we", "our", or "us"), we value your privacy and are committed to protecting your personal data. This Privacy Policy describes how our applications handles user data, including facial images, during the use of our editing feature

1. Overview

If you prefer not to read this entire Privacy Policy, here are the key points:

- Our Service provides photo and video editing tools that apply realistic facial transformations and effects.
- We **do not use**, **store**, or **analyze** your photos or videos for any purpose other than applying the chosen effects.
- We use **secure third-party cloud services**, including **Firebase Cloud Platform** and **Amazon Web Services (AWS)**, to temporarily process media files.
- Only the photos or videos you specifically select for editing are uploaded.
- After processing, all files are **automatically and permanently deleted** from our servers.

2. Data We Collect

The app may collect user-uploaded **facial images** only to apply filters and styles.
We do **not**:

- Extract biometric identifiers
- Perform facial recognition
- Store or use facial data for analytics, advertising, or profiling

No additional personal information is collected or required to use the Service.

3. How We Use Your Face Data

- The face image you upload is **temporarily processed** on our secure server to apply the selected style or filter.
- After the edited image is generated and sent back to your device, the original file is **immediately deleted**.
- We **never** use facial images for marketing, AI training, or any secondary purpose.

4. No Third-Party Sharing

We do **not share**, **sell**, or **transfer** user images or data to third parties.

- Images are only stored temporarily on secure servers for processing.
- Once the editing is complete, they are **permanently deleted**.
- No user data leaves our controlled environment or is used by advertisers.

5. Retention of Face Data

Face data is only stored **for the duration of the editing session**.
Once processing is completed, all data is automatically deleted.
We **do not retain** any image or related data beyond this period.

6. Definitions

- **Service** – The mobile application operated by Wiz Tech.
- **Personal Data** – Any information relating to an identifiable individual.
- **Usage Data** – Automatically collected information such as page visit duration or frequency.
- **Cookies** – Small text files stored on your device (not used in this Service).

7. Information Collection and Use

- We **do not collect** personal data.
- We **do not collect** cookies.
- The Service functions entirely without storing any identifiable user information.

8. Changes to This Privacy Policy

We may occasionally update this Privacy Policy.
When changes occur:

- We will post the updated version here.
- You will be notified via email and/or a prominent in-app notice.
- The **effective date** will be updated accordingly.

We encourage you to review this page periodically for the latest updates.
All changes become effective once they are published on this page.

Privacy Policy for AI Video Generator

Privacy Policy

Last updated: October 27, 2025

This Privacy Policy describes Our policies and procedures on the collection, use and disclosure of Your information when You use the Service and tells You about Your privacy rights and how the law protects You.

We use Your Personal data to provide and improve the Service. By using the Service, You agree to the collection and use of information in accordance with this Privacy Policy. This Privacy Policy has been created with the help of the Privacy Policy Generator.

Interpretation and Definitions

Interpretation

The words whose initial letters are capitalized have meanings defined under the following conditions. The following definitions shall have the same meaning regardless of whether they appear in singular or in plural.

Definitions

For the purposes of this Privacy Policy:

- **Account** means a unique account created for You to access our Service or parts of our Service.
- **Affiliate** means an entity that controls, is controlled by, or is under common control with a party, where "control" means ownership of 50% or more of the shares, equity interest or other securities entitled to vote for election of directors or other managing authority.
- **Application** refers to AI Video Generator, the software program provided by the Company.
- **Company** (referred to as either "the Company", "We", "Us" or "Our" in this Agreement) refers to AI Video Generator.
- **Country** refers to: Pakistan
- **Device** means any device that can access the Service such as a computer, a cell phone or a digital tablet.
- **Personal Data** is any information that relates to an identified or identifiable individual.
- **Service** refers to the Application.
- **Service Provider** means any natural or legal person who processes the data on behalf of the Company. It refers to third-party companies or individuals employed by the Company to facilitate the Service, to provide the Service on behalf of the Company, to perform services related to the Service or to assist the Company in analyzing how the Service is used.
- **Usage Data** refers to data collected automatically, either generated by the use of the Service or from the Service infrastructure itself (for example, the duration of a page visit).
- **You** means the individual accessing or using the Service, or the company, or other legal entity on behalf of which such individual is accessing or using the Service, as applicable.

Collecting and Using Your Personal Data

Types of Data Collected

Personal Data

While using Our Service, We may ask You to provide Us with certain personally identifiable information that can be used to contact or identify You. Personally identifiable information may include, but is not limited to:

- Usage Data

Usage Data

Usage Data is collected automatically when using the Service

Usage Data is collected automatically when using the Service.

Usage Data may include information such as Your Device's Internet Protocol address (e.g. IP address), browser type, browser version, the pages of our Service that You visit, the time and date of Your visit, the time spent on those pages, unique device identifiers and other diagnostic data.

When You access the Service by or through a mobile device, We may collect certain information automatically, including, but not limited to, the type of mobile device You use, Your mobile device's unique ID, the IP address of Your mobile device, Your mobile operating system, the type of mobile Internet browser You use, unique device identifiers and other diagnostic data.

We may also collect information that Your browser sends whenever You visit Our Service or when You access the Service by or through a mobile device.

Use of Your Personal Data

The Company may use Personal Data for the following purposes:

- **To provide and maintain our Service**, including to monitor the usage of our Service.
- **To manage Your Account:** to manage Your registration as a user of the Service. The Personal Data You provide can give You access to different functionalities of the Service that are available to You as a registered user.
- **For the performance of a contract:** the development, compliance and undertaking of the purchase contract for the products, items or services You have purchased or of any other contract with Us through the Service.
- **To contact You:** To contact You by email, telephone calls, SMS, or other equivalent forms of electronic communication, such as a mobile application's push notifications regarding updates or informative communications related to the functionalities, products or contracted services, including the security updates, when necessary or reasonable for their implementation.
- **To provide You** with news, special offers, and general information about other goods, services and events which We offer that are similar to those that you have already purchased or inquired about unless You have opted not to receive such information.
- **To manage Your requests:** To attend and manage Your requests to Us.
- **For business transfers:** We may use Your information to evaluate or conduct a merger, divestiture, restructuring, reorganization, dissolution, or other sale or transfer of some or all of Our assets, whether as a going concern or as part of bankruptcy, liquidation, or similar proceeding, in which Personal Data held by Us about our Service users is among the assets transferred.
- **For other purposes**: We may use Your information for other purposes, such as data analysis, identifying usage trends, determining the effectiveness of our promotional campaigns and to evaluate and improve our Service, products, services, marketing and your experience.

We may share Your personal information in the following situations:

- **With Service Providers:** We may share Your personal information with Service Providers to monitor and analyze the use of our Service, to contact You.
- **For business transfers:** We may share or transfer Your personal information in connection with, or during negotiations of, any merger, sale of Company assets, financing, or acquisition of all or a portion of Our business to another company.
- **With Affiliates:** We may share Your information with Our affiliates, in which case we will require those affiliates to honor this Privacy Policy. Affiliates include Our parent company and any other subsidiaries, joint venture partners or other companies that We control or that are under common control with Us.
- **With business partners:** We may share Your information with Our business partners to offer You certain products, services or promotions.
- **With other users:** when You share personal information or otherwise interact in the public areas with other users, such information may be viewed by all users and may be publicly distributed outside.
- **With Your consent**: We may disclose Your personal information for any other purpose with Your consent.

Retention of Your Personal Data

The Company will retain Your Personal Data only for as long as is necessary for the purposes set out in this Privacy Policy. We will retain and use Your Personal Data to the extent necessary to comply with our legal obligations (for example, if we are required to retain your data to comply with applicable laws), resolve disputes, and enforce our legal agreements and policies.

The Company will also retain Usage Data for internal analysis purposes. Usage Data is generally retained for a shorter period of time, except when this data is used to strengthen the security or to improve the functionality of Our Service, or We are legally obligated to retain this data for longer periods.

Transfer of Your Personal Data

Your information, including Personal Data, is processed at the Company's operating offices and in any other places where the parties involved in

the processing are located. It means that this information may be transferred to — and maintained on — computers located outside of Your state, province, country or other governmental jurisdiction where the data protection laws may differ from those from Your jurisdiction.

Your consent to this Privacy Policy followed by Your submission of such information represents Your agreement to that transfer.

The Company will take all steps reasonably necessary to ensure that Your data is treated securely and in accordance with this Privacy Policy and no transfer of Your Personal Data will take place to an organization or a country unless there are adequate controls in place including the security of Your data and other personal information.

Delete Your Personal Data

You have the right to delete or request that We assist in deleting the Personal Data that We have collected about You.

Our Service may give You the ability to delete certain information about You from within the Service.

You may update, amend, or delete Your information at any time by signing in to Your Account, if you have one, and visiting the account settings section that allows you to manage Your personal information. You may also contact Us to request access to, correct, or delete any personal information that You have provided to Us.

Please note, however, that We may need to retain certain information when we have a legal obligation or lawful basis to do so.

Disclosure of Your Personal Data

Business Transactions

If the Company is involved in a merger, acquisition or asset sale, Your Personal Data may be transferred. We will provide notice before Your Personal Data is transferred and becomes subject to a different Privacy Policy.

Law enforcement

Under certain circumstances, the Company may be required to disclose Your Personal Data if required to do so by law or in response to valid requests by public authorities (e.g. a court or a government agency).

Other legal requirements

The Company may disclose Your Personal Data in the good faith belief that such action is necessary to:

- Comply with a legal obligation
- Protect and defend the rights or property of the Company
- Prevent or investigate possible wrongdoing in connection with the Service
- Protect the personal safety of Users of the Service or the public
- Protect against legal liability

Security of Your Personal Data

The security of Your Personal Data is important to Us, but remember that no method of transmission over the Internet, or method of electronic storage is 100% secure. While We strive to use commercially reasonable means to protect Your Personal Data, We cannot guarantee its absolute security.

Children's Privacy

Our Service does not address anyone under the age of 13. We do not knowingly collect personally identifiable information from anyone under the age of 13. If You are a parent or guardian and You are aware that Your child has provided Us with Personal Data, please contact Us. If We become aware that We have collected Personal Data from anyone under the age of 13 without verification of parental consent, We take steps to remove that information from Our servers.

If We need to rely on consent as a legal basis for processing Your information and Your country requires consent from a parent, We may require Your parent's consent before We collect and use that information.

Links to Other Websites

Our Service may contain links to other websites that are not operated by Us. If You click on a third party link, You will be directed to that third party's site. We strongly advise You to review the Privacy Policy of every site You visit.

Effective Date: 12 Feb 2026

This Privacy Policy applies to all mobile applications published by
Magic Apps

and associated developer accounts, including but not limited to AI-based

applications, design template applications, utility applications, and productivity

tools (collectively referred to as “Apps”).

By using our Apps, you agree to the practices described in this Privacy Policy.

1. Information We Collect

Depending on the specific application and features used, we may collect the

following categories of information:

A. User-Provided Content

When using certain features (such as AI tools, design tools, printing features, or

file processing tools), you may provide:

- Text input or prompts
- Uploaded images
- Uploaded videos
- Uploaded documents or files

This content is used solely to provide the requested functionality.

B. Device Identifiers

Some Apps may generate or collect a device-based identifier to manage:

- In-app credits
- Subscription validation
- Feature access
- Usage limits
- Fraud prevention
- Technical performance

This device identifier:

- Is not linked to your real-world identity

- Is not used for cross-app tracking
- Is not sold
- Is not shared for advertising purposes

It is used strictly for app functionality.

C. Usage Data

We may collect limited technical and usage information such as:

- App version
- Device type
- Operating system
- Crash logs
- Performance data

This information is used to improve app performance and stability.

2. AI Features & Content Processing

Some of our Apps include artificial intelligence (“AI”) features such as:

- Image generation
- Video generation
- Text generation
- Design enhancement
- Content transformation

When you use AI-based features, the content you provide (such as prompts or uploaded media) may be securely transmitted to third-party processing services to generate the requested output.

This may include:

- Text prompts
- Uploaded images
- Uploaded videos
- Uploaded files

This content is transmitted solely to provide the requested feature.

Third-party processing providers may temporarily store submitted content for a limited duration (for example, up to 14 days) for processing, reliability, and system performance purposes.

We do not use submitted AI content for advertising or marketing purposes.

We do not sell AI-submitted content.

Where required, user consent is obtained before transmitting content for AI processing.

AI-submitted content is not linked to personal identifiers such as name or email address unless explicitly stated within a specific application.

3. Third-Party Service Providers

We may use third-party service providers to support our Apps, including:

- Cloud hosting services
- Payment processors
- Subscription management platforms

- Analytics providers
- AI processing services
- Advertising networks (where applicable)

These providers receive only the information necessary to perform their services and are required to maintain appropriate privacy and security safeguards.

4. Advertising (If Applicable)

Some Apps may display advertisements provided by third-party advertising partners.

Advertising partners may collect limited device information as permitted by platform policies to deliver relevant ads.

We do not control third-party advertising technologies and encourage users to review their respective privacy policies.

5. Data Retention

We retain collected information only as long as necessary to:

- Provide app functionality
- Maintain system reliability
- Comply with legal obligations

AI-submitted content may be temporarily stored by third-party processors for a limited period for operational purposes.

6. Data Security

We implement reasonable technical and organizational safeguards to protect user information against unauthorized access, disclosure, or misuse.

However, no method of transmission or storage is completely secure.

7. Children’s Privacy

Our Apps are not intended for children under the age of 13 (or the applicable age in your jurisdiction).

We do not knowingly collect personal information from children.

8. Your Rights

Depending on your location, you may have rights regarding your data, including:

- Access
- Correction
- Deletion
- Restriction of processing

Requests may be submitted using the contact information below.

Description

Create stunning designs effortlessly with AI powered graphics generation, ready made templates, and flexible project creation tools. Save, manage, and continue your work anytime with smart draft management designed for seamless creativity.

Generate Creative Graphics
Create stunning and creative graphics instantly with the power of AI. Our app helps you turn your ideas into unique designs by simply entering a prompt or concept, selecting your preferred design style, choosing custom dimensions, and adding any extra instructions. Whether you need social media posts, digital artwork, marketing visuals, or creative content, the app generates high quality graphics tailored to your vision in just a few clicks.

Templates
Easily create professional designs with customizable ready-made templates. Browse through a wide collection of beautifully designed templates for social media, marketing, business, and creative projects, then personalize them to match your style and needs.

Create Custom Project
Create custom projects effortlessly with powerful and flexible editing tools designed for every type of creator. Start your work from a blank canvas, generate unique designs with AI, or choose from professionally crafted templates to speed up your workflow. Personalize your projects by adding text and images, editing colors, adjusting layouts, and fine-tuning every detail to match your vision.

Save in Draft
Keep your creative work organized with the Drafts feature, designed to store unfinished and saved projects securely in one place. Easily return to your drafts anytime to continue editing and refining your designs without losing progress. Users can manage their projects effortlessly by updating existing drafts, deleting unwanted files, and exporting completed designs in high quality whenever they are ready to share or use them.

Export & Sharing Designs
Export and share your designs with ease using flexible saving and sharing options. Users can save their creations locally on their device and export designs in multiple high-quality formats, including transparent PNG, non-transparent PNG, and JPG, making them perfect for digital content, branding, and print use.

Subscription:
Subscription payments will be charged to your iTunes account upon confirmation of purchase. Your subscription will automatically renew unless auto renew is turned off at least 24 hours before the end of the current period, and the renewal cost will depend on your chosen plan. Subscriptions that include a free trial will automatically convert to a paid plan unless canceled before the trial ends. You can manage or cancel auto renewal in your Account Settings at any time. Any cancellation will take effect 24 hours after the final day of your current subscription period, after which your account will be downgraded.

Appendix — the privacy policy linked from the listing as displayed

Full-page browser capture of https://sites.google.com/laibafam.com/designstudio-mac/privacy-policy, taken 2026-11-17 14:29:56 UTC. Cookie-consent overlays (the host's, not the page's content) were hidden before the capture, and Google pages were opened in English.

This privacy policy applies to the **Design Studio Mac App** (hereby referred to as "Application") for mobile devices that was created by Laiba Amir (hereby referred to as "Service Provider") as a Freemium service. This service is intended for use "AS IS".

Information Collection and Use
The Application collects information when you download and use it. This information may include information such as

- Your device's Internet Protocol address (e.g. IP address)
- The pages of the Application that you visit, the time and date of your visit, the time spent on those pages
- The time spent on the Application
- The operating system you use on your mobile device

The Application does not gather precise information about the location of your mobile device.

The Application does not use Artificial Intelligence (AI) technologies to process your data or provide features.

The Service Provider may use the information you provided to contact you from time to time to provide you with important information, required notices and marketing promotions.

For a better experience, while using the Application, the Service Provider may require you to provide us with certain personally identifiable information. The information that the Service Provider request will be retained by them and used as described in this privacy policy.

Third Party Access
Only aggregated, anonymized data is periodically transmitted to external services to aid the Service Provider in improving the Application and their service. The Service Provider may share your information with third parties in the ways that are described in this privacy statement.

Please note that the Application utilizes third-party services that have their own Privacy Policy about handling data. Below are the links to the Privacy Policy of the third-party service providers used by the Application:

- Firebase Crashlytics

The Service Provider may disclose User Provided and Automatically Collected Information:

- as required by law, such as to comply with a subpoena, or similar legal process;
- when they believe in good faith that disclosure is necessary to protect their rights, protect your safety or the safety of others, investigate fraud, or respond to a government request;
- with their trusted services providers who work on their behalf, do not have an independent use of the information we disclose to them, and have agreed to adhere to the rules set forth in this privacy statement.

Opt-Out Rights
You can stop all collection of information by the Application easily by uninstalling it. You may use the standard uninstall processes as may be available as part of your mobile device or via the mobile application marketplace or network.

Data Retention Policy
The Service Provider will retain User Provided data for as long as you use the Application and for a reasonable time thereafter. If you'd like them to delete User Provided Data that you have provided via the Application, please contact them at info@laibafam.com and they will respond in a reasonable time.

Children
The Service Provider does not use the Application to knowingly solicit data from or market to children under the age of 13.

The Application does not address anyone under the age of 13. The Service Provider does not knowingly collect personally identifiable information from children under 13 years of age. In the case the Service Provider discover that a child under 13 has provided personal information, the Service Provider will immediately delete this from their servers. If you are a parent or guardian and you are aware that your child has provided us with personal information, please contact the Service Provider (info@laibafam.com) so that they will be able to take the necessary actions.

Security
The Service Provider is concerned about safeguarding the confidentiality of your information. The Service Provider provides physical, electronic, and procedural safeguards to protect information the Service Provider processes and maintains.

Changes

Changes

This Privacy Policy may be updated from time to time for any reason. The Service Provider will notify you of any changes to the Privacy Policy by updating this page with the new Privacy Policy. You are advised to consult this Privacy Policy regularly for any changes, as continued use is deemed approval of all changes.

This privacy policy is effective as of 2026-05-05

Your Consent

By using the Application, you are consenting to the processing of your information as set forth in this Privacy Policy now and as amended by us.

Contact Us

If you have any questions regarding privacy while using the Application, or have questions about the practices, please contact the Service Provider via email at info@laibafam.com.

Not What I Expected

1/5 stars · 2025-12-25 · MUWP · US App Store
I have not been able to use the print from this app because it does not stay connected to my Bluetooth. I have updated my computer and unplugged my Cricut several times. This has been a waste of my money, wish I could get a refund. So disappointed.
Matched terms: refund

Not a Ginuine Cricut App!!!

1/5 stars · 2025-06-06 · Jay Jay G 83 · US App Store
I feel like I have been scammmmmed!!! I just found out that this is not even a legit Cricut app. Customers should be made aware of this ahead of time. I am having such a hard time finding my way around this app, and to top it all off, I paid for the lifetime access with the impression that this was a ginuine application. I want my money back!!! Cricut has been notified of this injustice and will be passing this along to their fraud department.
Matched terms: scam, fraud

Do not buy.

1/5 stars · 2024-12-23 · El Chonkolonko · US App Store
Accidentally downloaded this instead of the Cricut Design Space. That's not bad, however, it forced me to forcibly shut down my computer. It absolutely gave me a scammy vibe from the outset. Any reputable company should allow you to exit from operation of its app, but this one does not.
Matched terms: scam

TechTribe Apps developed the Ai Watchface Wallpaper Gallery App as an ad-supported service. This app is provided at no cost and is intended for use as is.

This page is designed to inform users about our policies regarding the collection, use, and disclosure of Personal Information when using our Service. By choosing to use our Service, you agree to the collection and use of information in accordance with this policy. We collect Personal Information to enhance and improve the Service, and we will not use or share your information with anyone except as described in this Privacy Policy.

The terms in this Privacy Policy have the same meanings as those in our Terms and Services, which can be accessed in the app unless defined otherwise here.

Information Collection and Use

To provide you with a better experience while using our Service, we may ask you to provide certain personally identifiable information, including but not limited to Device UDID, country, device manufacturer, device model, OS version, and platform. The information we collect will be retained and used as outlined in this privacy policy.

The app may also utilize third-party services that could collect information used to identify you. Here's a link to the privacy policy of our third-party service providers, including AdMob.

Log Data

In the event of an error while using our Service, we collect data and information (through third-party products) from your device known as Log Data. This Log Data may include details such as your device's Internet Protocol (IP) address, device name, operating system version, app configuration during use, and timestamps of your activity.

Cookies

Cookies are small files that act as anonymous unique identifiers, sent to your browser from the websites you visit and stored on your device. This app does not explicitly use cookies. However, third-party code and libraries used by the app may employ cookies for data collection and service improvement. You can choose to accept or decline these cookies, but refusing them may limit your ability to use certain features of the Service.

Service Providers

We may engage third-party companies and individuals for the following purposes:

- To facilitate our Service
- To provide the Service on our behalf
- To perform service-related tasks
- To help analyze how our Service is used

Please note that these third parties have access to your Personal Information only to perform tasks on our behalf and are obligated not to disclose or use it for any other purpose.

Security

We value your trust in providing us with your Personal Information and strive to use commercially acceptable means to protect it. However, please remember that no method of transmission over the internet or electronic storage is 100% secure, and we cannot guarantee absolute security.

Links to Other Sites

Our Service may contain links to other websites. If you click on a third-party link, you will be directed to that site. We strongly recommend reviewing the Privacy Policy of these external sites, as we have no control over and assume no responsibility for their content, privacy policies, or practices.

Children's Privacy

Our Services do not address anyone under the age of 13. We do not knowingly collect personally identifiable information from children under 13. If we become aware that we have collected such information, we will delete it from our servers. If you are a parent or guardian and believe your child has provided us with personal information, please contact us so we can take appropriate action.

Changes to This Privacy Policy

We may update our Privacy Policy periodically. We encourage you to review this page regularly for any changes. Any updates will be posted here, and the policy will be effective as of 2024-05-30.
