Description

Dyncord is a focused Discord companion for macOS. Manage multiple accounts, draft smarter messages with AI, generate server layouts, and stay on top of every conversation—right on your desktop.

MULTI ACCOUNT WORKSPACE

Run Personal, Work, and Gaming Discord accounts side by side. Each session stays isolated with its own name, avatar, and accent.

- Quick-switch with ⌘1-⌘9
- Unread badges per account
- Isolated logins that stay separate

AI MESSAGE GENERATOR

Draft announcements, invites, outreach, support replies, moderation notices, and more.

- 16 ready-to-use templates
- Tones: Friendly, Professional, Witty, Supportive, Hype
- Save winners to your message library

GENERATE REPLY

Capture the live conversation, pick a tone and length, and insert an editable AI reply into the Discord composer. Nothing sends until you press Send.

AI SERVER GENERATOR

Spin up ready-to-use server layouts with channels, roles, rules, and a welcome message.

- Presets for Gaming, Community, Education, Creators, and Business
- Apply layouts through your active Discord session

WORKSPACE TOOLS

See who Needs Attention, queue drafts, and jump anywhere with the ⌘K command palette. Built for power users who manage Discord at scale.

BUILT FOR macOS

A native Mac experience with Finder downloads, Discord theme sync (Light, Ash, Dark, Onyx, Darker), and keyboard shortcuts that keep you fast.

START FREE. GO FURTHER WITH PRO.

Try the app with one Discord account, then unlock unlimited accounts, AI tools, workspace features, and priority AI generation with Dyncord Pro (Weekly, Monthly, 6-Month, or Yearly via the Mac App Store). Cancel anytime from your App Store account.

PRIVACY

AI suggestions may be inaccurate—always review before posting. See our Privacy Policy for full details.

Disclaimer

Dyncord is an independent product and is not affiliated with, endorsed by, or sponsored by Discord Inc. Discord is a trademark of Discord Inc.

Privacy Policy: <https://sites.google.com/view/appfordiscord/privacy-policy>

Appendix — the developer website linked from the listing as displayed

Full-page browser capture of <https://sites.google.com/view/appfordiscord/home>, taken 2026-10-23 14:01:06 UTC. Cookie-consent overlays (the host's, not the page's content) were hidden before the capture, and Google pages were opened in English.

FEATURES

Built for people who live in Discord

Dyncord wraps Discord in a focused macOS experience with multi-account switching, AI drafting, and workspace tools that keep you on top of every conversation.

Multi-account

Switch workspaces without the browser chaos

Keep separate Discord sessions side by side. Quick-switch between accounts with ⌘1-⌘9, see unread badges at a glance, and keep each login isolated with its own name, avatar, and accent color.

AI Message Generator

Write messages that match the moment

Pick from 16 templates — announcements, event invites, payment reminders, support replies, thank-you notes, and more. Choose a tone (Friendly, Professional, Witty, Supportive, or Hype), a length, and save results to your reusable message library.

Generate Reply

Reply in context, right from the chat

Capture the conversation you're reading, pick a tone and length, and get an editable AI reply. Insert it straight into the Discord composer — nothing sends until you press Send.

AI Server Generator

Spin up server structure in minutes

Generate channels, roles, rules, and a welcome message for Gaming, Community, Education, Creators, or Business servers — then let the app build the categories and channels in Discord for you.

Workspace tools

Stay on top of every account

A Needs Attention view surfaces accounts with unread activity, a Draft Queue holds messages until you're ready, and the ⌘K command palette jumps to any account, saved message, or action instantly.

Native touches

Feels like a Mac app, not a tab

Download attachments straight to your Downloads folder with Finder integration,

and watch the app's appearance follow your Discord theme — Light, Ash, Dark, Onyx, or Darker.

HOW IT WORKS

Up and running in three steps

No complicated setup — open the app, add your accounts, and get back to chatting.

01

Add your accounts

Create a workspace for each Discord login. Customize the name and avatar so switching stays clear.

02

Sign in once per session

Each account keeps its own isolated web session. Sign in, stay signed in, and move on.

03

Use AI when you need it

Draft replies in context or generate server layouts — everything lands in Discord only after you review it.

DYNCORD PRO

Everything you need to manage Discord at scale

Unlock unlimited accounts, AI tools, and advanced workspace features. Flexible billing through the App Store — cancel anytime.

- Unlimited Discord accounts with quick switching
- AI Message Generator with 16 templates and message library
- Generate Reply from live conversations
- AI Server Generator with automated Discord setup
- Priority AI generation
- Premium support

GET STARTED

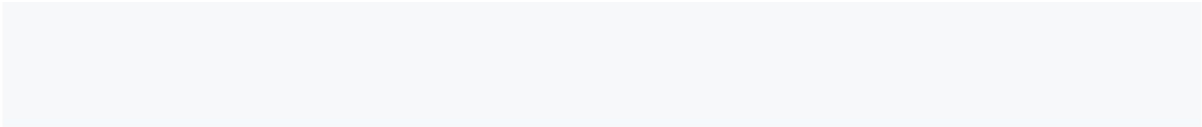

Your Discord workspace, on Mac

Download Dyncord and bring multi-account Discord and AI drafting to your desktop.

Last updated: October 22, 2026

This Privacy Policy explains how Dyncord (“we”, “us”) collects, uses, and shares information when you use our macOS app and website.

Discord sessions stay local

Account sessions and workspace settings are stored on your Mac.

Purchases via Apple

Subscriptions are processed by Apple; we don't store your card details.

AI prompts

Prompts you submit to AI features may be processed to generate results.

You're in control

Remove accounts or uninstall to clear app data.

ON THIS PAGE

- [1. Information we collect](#)
- [2. How we use information](#)
- [3. Sharing](#)
- [4. Storage and security](#)
- [5. Retention](#)
- [6. Your choices and rights](#)
- [7. Children](#)
- [8. Third-party services](#)
- [9. Changes](#)
- [10. Contact](#)

1. Information we collect

Depending on how you use the Service, we may process:

- **Account workspace data you create in the app** — display names, avatars, favorites, and theme preferences stored locally on your device
- **Discord session data** — cookies and session state needed to keep you signed in to Discord inside the app's web view (stored on your device)
- **AI feature inputs** — prompts, tone/length settings, and related context (including conversation excerpts you choose to include) when using Generate Reply, AI Message Generator, or AI Server Generator
- **Drafts and saved messages** — draft queue entries and message library items you create, stored locally on your device
- **Purchase status** — subscription entitlement information from Apple (for example, whether Pro is active)
- **Support communications** — email address and message content if you contact us
- **Website usage** — if our website uses analytics or cookies (for example via Google Sites), those

providers may collect standard log and device data as described in their policies

We do not ask you to send us your Discord password. Sign-in happens through Discord's own login flow inside the app.

2. How we use information

We use information to:

- Provide and improve multi-account Discord access and workspace features
- Generate AI suggestions you request
- Verify Pro subscription status and unlock paid features
- Respond to support requests
- Maintain security and prevent abuse
- Comply with legal obligations

3. Sharing

We do not sell your personal information. We may share information with:

- **Apple** — for App Store purchases, subscriptions, and related account management
- **AI / infrastructure providers** — to process prompts and return generated content when you use AI features (for example, OpenAI)
- **Service providers** — who help us operate email support or the website, under appropriate confidentiality obligations
- **Legal authorities** — when required by law or to protect rights and safety

Discord content and activity you access through the app are also subject to Discord's own Privacy Policy.

4. Storage and security

Local app data (including Discord sessions for accounts you add, drafts, and your message library) is stored on your Mac. Files you download from Discord are saved to your Downloads folder. We take reasonable measures to protect information we process, but no method of electronic storage or transmission is 100% secure.

5. Retention

Local data remains on your device until you remove an account, clear app data, or uninstall the app. Support emails are retained as long as needed to resolve your request and for legitimate business records. Purchase records follow Apple's retention practices for App Store transactions.

6. Your choices and rights

You can:

- Remove Discord accounts from the app (this signs out and clears that account's session data in the app)
- Uninstall the app to remove local app data from your Mac
- Manage or cancel subscriptions in your Apple ID subscription settings
- Contact us to request access, correction, or deletion of personal information we hold about you (for example, support emails), subject to applicable law

7. Children

The Service is not directed to children under 13 (or the minimum age required in your country). We do not knowingly collect personal information from children. If you believe a child has provided us information, contact us and we will take appropriate steps to delete it.

8. Third-party services

The app embeds Discord's web experience and may connect to Apple and AI providers. Those services have their own privacy policies. We encourage you to review:

- [Discord Privacy Policy](#)
- [Apple Privacy Policy](#)
- [OpenAI Privacy Policy](#)

9. Changes

We may update this Privacy Policy from time to time. The "Last updated" date will change when we do. Continued use of the Service after an update means you acknowledge the revised policy.

10. Contact

Privacy questions? Visit [Support](#).
