Description

Claude AI chat for iPhone and iPad — chat, write, code, and create with Anthropic Claude models (Fable, Opus, Sonnet, Haiku) in a fast native iOS app.

AI Assistant AI Chat Bot brings Claude to your iPhone and iPad. Get intelligent conversations, document tools, web search, voice input, and 20+ writing artifacts — wherever you are.

WHY PEOPLE SWITCH TO THIS APP

- Native iOS app for iPhone and iPad — fast, clean, distraction-free
- Claude models: Fable, Opus, Sonnet, Haiku (Premium)
- Claude Cowork-style workflows for writing and coding
- File chat, live web search, and voice input built in
- 20+ ready-to-run AI writing and productivity tools

POWERFUL AI CHAT

- Multi-turn conversations with streaming responses
- Clean Markdown (code blocks, lists, tables, headers)
- Organize, rename, and search conversations
- Tap Send to send; Return for a new line

- Copy any message instantly
- Switch Claude models anytime

FILE ATTACHMENTS

Attach and chat with:

- PDFs
- Word documents (DOCX)
- Markdown & text files
- Code files (Swift, Python, JS, and more)
- CSV, JSON, XML, YAML
- RTF, HTML, and more

Text is extracted automatically and added to your conversation.

SMART WEB SEARCH

Ask about current events, recent updates, or today's information. Get structured, up-to-date context for research, fact-checking, and trend analysis.

VOICE INPUT

Speak naturally. Built-in speech-to-text turns your voice into chat input on your device.

ACTION MODES

Choose how the assistant responds:

- Code
- Write
- Create
- Learn
- AI Choice

Each mode adapts tone and focus to your task.

ARTIFACTS — 20+ BUILT-IN AI TOOLS

Writing:

- Email generator
- Resume builder
- Application letters
- Academic essays
- Poetry

Content:

- Blog posts
- Product descriptions
- Scripts
- Quiz creator

Productivity:

- Summaries
- Meeting notes
- Rewrite & polish
- Ask your document
- Citation helper

Social:

- LinkedIn posts
- Hashtag suggestions
- Social captions
- Ad copy

All outputs are formatted and easy to copy.

DESIGNED FOR IPHONE AND IPAD

- Native SwiftUI interface

- Optimized for iPhone and iPad, including landscape on iPad
- Dark mode ready
- Fast, responsive, distraction-free

FREE VS PREMIUM

Free (no subscription required)

- 4 free messages
- Access to Haiku 3 and Sonnet 4.5
- Browse and view Artifacts library
- Core chat features (Markdown, conversation management)
- Voice input

Premium (monthly or yearly)

- Unlimited messages — no caps or daily limits
- All Claude models: Fable, Haiku 3, Sonnet 4.5, Opus 4.6, and Haiku 4.5
- Generate and run all 20+ Artifacts tools
- Priority support

Web search and file attachments are available to all users. Premium unlocks unlimited usage, advanced models, and full Artifacts generation.

IMPORTANT

AI Assistant AI Chat Bot is an independent application and is not affiliated with or endorsed by Anthropic. Chat works in the app — no separate Anthropic account or API key is required to start.

AI Assistant AI Chat Bot

Build on **Claude** API

Claudius

Your AI chat assistant for Mac and iPhone

Write, research, code, and create faster with a native Claude-powered chat experience — built for focus on desktop and simplicity on mobile.

[macOS desktop app](#)[iOS iPhone app](#)

WHAT YOU GET

Everything you need in one conversation

Claudius brings the same thoughtful chat experience to Mac and iPhone — streaming replies, local history, and tools that stay out of your way.

AI Chat

Intelligent multi-turn conversations

Streamed responses with Markdown formatting, conversation history saved on your device, and support for multiple Claude models — including Multi-Model auto selection.

Attachments

Bring your documents into the chat

Attach PDFs, Word files, text and Markdown, code, CSV, JSON, and more. Claudius extracts readable text locally and includes it only when you send a message.

Web Search

Ask about what's happening now

When enabled, Claudius can look up current information and weave structured context into your reply — useful for news, trends, and timely questions.

Voice

Speak instead of type

Optional voice input uses on-device microphone access and system speech recognition so you can dictate messages on Mac or iPhone.

Artifacts

Smart templates for real work

Jump into 20+ built-in tools for emails, resumes, essays, blog posts, captions, meeting notes, rewrites, and more — then refine the result in chat.

PLATFORMS

Designed for how you work

One product family, two native apps — each tuned to its device without changing what Claudius is.

macOS

A focused desktop workspace for longer sessions, deep research, and writing.

iOS

The same Claudius on iPhone — ready for quick questions, voice input, and ideas on the go.

- Native Mac experience
- Large-document friendly chat
- Keyboard-first productivity
- Local conversation storage

- Native iPhone experience
- Touch-friendly chat and tools
- Voice input with system speech
- Local conversation storage

PLANS

Start free. Go Premium when you need more.

Try Claudius with a free tier, then unlock the full experience with a monthly or yearly subscription through Apple.

Free

Limited messages so you can explore chat, attachments, and core features before subscribing.

Premium

Unlimited messages and access to all models — billed securely through your Apple ID on Mac or iPhone.

PRIVACY

Private by design

Claudius is built local-first. Your chats stay on your device until you choose to send a message for AI processing.

- No account required to use the app
- Conversations saved locally on your Mac or iPhone
- No cloud database of your chat history operated by us
- AI requests are sent only after you accept the in-app data sharing notice

Appendix — the privacy policy linked from the listing as displayed

Privacy Policy

Claudius

Privacy Policy

Last updated: 13 August 2026

Claudius ("we", "our", or "us") respects your privacy. This Privacy Policy explains how information is handled when you use the Claudius AI chat applications on macOS and iOS (also known as Multi-Model AI Chat Bot).

[macOS desktop app](#) [iOS iPhone app](#)

OVERVIEW

1. No account required

The apps do not require user registration or account creation. We do not collect email addresses or passwords for an in-app account.

An optional display name you enter (for example, for greetings) is stored on your device. On iOS, a preference about whether a display name is set may also be reflected in analytics user properties.

LOCAL STORAGE

2. Data stored on your device

Claudius is designed with a local-first architecture.

- Chat conversations are stored locally on your Mac or iPhone
- We do not operate a cloud database for your conversations
- We do not store your chat history on our servers
- App settings (theme, language, preferences, and similar) stay on your device

AI PROCESSING

3. Sharing data with third-party AI and search services

To generate AI responses, the apps send certain information from your device to third-party services only after you review and accept the in-app Data Sharing Notice, and when you send a message or use features that require AI processing.

3.1 What may be sent

- Your chat messages and prior messages in the same conversation (conversation context)
- Text extracted locally from file attachments you choose to include
- Web search queries and summarized search results when web search is used
- The AI model you select

3.2 Who receives it

Anthropic (Claude API)

Your messages and related context are sent to Anthropic's API to generate AI replies. Anthropic processes this data under its own terms and privacy policy. We do not control how Anthropic handles data after it is transmitted.

Web search (when enabled)

When the app performs a web search, it may query DuckDuckGo and retrieve content from public websites to provide up-to-date context. Summarized results may be included in requests sent to Anthropic. We do not control how those third parties handle data.

We do not sell your personal information to third parties.

FILES

4. File attachments

- Text is extracted locally on your device
- Extracted content may be included in AI requests only if you choose to send the message
- Original files are not uploaded to our servers
- Content is sent to AI providers only as part of the message request described above

VOICE

5. Voice input (microphone and speech recognition)

The apps offer optional voice input on both macOS and iOS:

- The microphone is used to capture your voice and transcribe it into the chat input field
- System Speech Recognition (including Apple's speech services) may be used for transcription
- Apple may process speech data as described in the system permission dialogs on your device
- Audio is not sent to Anthropic — only text you send in a message may be shared with Anthropic

You can decline microphone or speech recognition permissions in System Settings (macOS) or Settings (iOS). Voice input will not work without the permissions you choose to grant.

ANALYTICS

6. Analytics, diagnostics, and subscriptions

Claudius does not use advertising trackers, behavioral advertising, or third-party marketing SDKs for cross-app tracking. We do not use App Tracking Transparency advertising identifiers for tracking.

6.1 iOS app

The iOS app may use Firebase Analytics and Firebase Crashlytics to understand app usage, improve reliability, and diagnose crashes or errors. This may include:

- Anonymous or install-scoped identifiers used for analytics
- Product interaction events (for example, sessions, feature use, paywall events)
- Usage and performance-related metrics
- Crash and non-fatal error diagnostics
- Subscription-related status needed for app functionality and analytics (such as plan status)

Firebase App Check may be used to help protect backend requests from abuse. Analytics and diagnostics are used to improve the product, not to sell your data.

6.2 macOS app

The macOS app is designed to keep conversations local and focused on app functionality. Platform analytics practices may differ by version. This policy will be updated if additional analytics providers are added to the Mac app.

6.3 Purchases

Premium subscriptions are processed by Apple through your Apple ID. We receive limited subscription status information needed to unlock Premium features and may record related analytics events. Apple handles payment details under Apple's policies.

CHILDREN

7. Children's privacy

The apps are not directed to children under 13. We do not knowingly collect personal information from children under 13.

CHOICES

8. Your choices

- You must accept the in-app Data Sharing Notice before the app sends chat or attachment content to AI providers

- You can stop using AI features at any time by not sending messages
- You can delete local chats within the app
- You can revoke microphone or speech recognition access in system privacy settings
- You can manage or cancel subscriptions in your Apple account settings

UPDATES

9. Changes to this policy

We may update this Privacy Policy from time to time. Updates will be posted on this page with a revised "Last updated" date. Continued use of the apps after changes constitutes acceptance of the updated policy where permitted by law.

Description

AI Chat Bot & Search Anything

Unlock the power of AI with AI Chat Bot & Search Anything — your intelligent assistant powered by Claude. Whether you're writing, brainstorming, learning, coding, or searching for information, get thoughtful, accurate, and natural responses in seconds.

- Chat with Claude

Experience intelligent conversations powered by Claude. Ask questions, explore ideas, solve problems, or simply chat with an AI that understands context and delivers detailed, helpful responses.

- AI Writing Assistant

Create emails, articles, stories, essays, social media posts, summaries, and more. Claude helps you write clearly, improve your content, and overcome writer's block.

- Search Anything

Find answers, explain complex topics, generate ideas, and explore information quickly. From everyday questions to in-depth research, your AI assistant is ready to help.

- Learn & Study Smarter

Simplify difficult concepts, generate study notes, create summaries, and receive step-by-step explanations for a wide range of subjects.

- Coding Assistance

Generate code, debug errors, understand programming concepts, and receive explanations for multiple programming languages—all within a simple interface.

- Fast, Clean & Distraction-Free

Enjoy a modern, intuitive experience designed for speed and productivity. Focus on your conversations without unnecessary clutter.

- Subscription & Disclaimer

Subscriptions provide access to premium features within AI Chat Bot & Search Anything. All subscriptions automatically renew unless canceled at least 24 hours before the end of the current billing period.

Subscriptions remain active while the app is available on the App Store. If the app becomes unavailable or is removed from the App Store, access to subscription-based features may no longer be supported.

Disclaimer: AI Chat Bot & Search Anything is an independent application. Claude is an AI model developed by Anthropic. This app is not affiliated with, endorsed by, or sponsored by Anthropic.

Why AI Chat Bot & Search Anything?

Whether you need help writing, learning, coding, researching, or simply having an intelligent conversation, AI Chat Bot & Search Anything gives you instant access to powerful AI assistance whenever you need it.

Privacy Policy

This Privacy Policy describes how our application ("App") handles user information in accordance with Apple App Store Review Guidelines. By using the App, you agree to the practices described below.

Data Collection

We do **not collect personal data** from users.

The App does not require account registration and does not request personal information such as your name, email address, phone number, or location.

Most features of the App function **offline** and do not require an internet connection.

Limited Data Usage

In limited cases, the App may use an internet connection for the following purposes:

- Retrieving external data (e.g., currency exchange rates)
- Synchronizing user data with Apple iCloud (if enabled by the user)

Any data stored in iCloud is managed by Apple and governed by Apple's Privacy Policy. We do not access or store this data on our own servers.

Face Data and User Content

If the App includes features that process face images:

- Face images are **provided directly by the user** and processed only to deliver the requested functionality.
- Processing occurs **temporarily and in real time**.
- **No face data, images, or biometric identifiers are stored, collected, or shared.**
- **No facial recognition or identification is performed.**
- All images are **permanently deleted immediately after processing**.

We do not use face data for tracking, profiling, or analytics purposes.

Non-Personal Data

We may collect limited non-personal, anonymized information, such as:

- Device type
- Operating system version
- App performance and usage data

This information is used solely to improve app performance, stability, and user experience. This data does **not identify individual users**.

Third-Party Services

The App may use limited third-party services (e.g., analytics or functionality providers). These services may collect anonymized, non-personal data strictly for performance and functionality purposes.

We do not sell, trade, or share user data for advertising or marketing.

Data Sharing

We do not share personal data because we do not collect it.

Non-personal data shared with service providers is limited, used only for app functionality, and handled in compliance with applicable privacy laws.

User Rights

Since we do not collect personal data, there is no personal data to access, modify, or delete.

If you contact us, you may request deletion of any communication records.

Email Communication

If you contact us via email, your email address will be used only to respond to your inquiry.

We do not store, share, or use your email for marketing purposes.

Children's Privacy

The App does not knowingly collect personal data from children under 13 (or the applicable age in your region).

Changes to This Policy

We may update this Privacy Policy from time to time. Updates will be posted within the App or on this page with a revised effective date.

Contact Us

If you have questions about this Privacy Policy or data practices, please contact us. We will respond within a reasonable timeframe.

Description

Claude AI Assistant for Mac - Chat, Code, Write & Create

A powerful AI assistant for macOS built with the Claude API, bringing intelligent conversations, coding, writing, learning, document analysis, and productivity tools together in one streamlined Mac experience.

Claude AI Models

Choose from available Claude models, including Opus (4.8), Sonnet (4.6), and Haiku (4.5), and select the model that best fits your task from advanced reasoning to fast everyday assistance.

Key Features

AI Chat

Ask questions, brainstorm ideas, explore topics, and solve problems with fast, contextual AI conversations.

Code Assistant

Generate, explain, compare, and improve code across multiple programming languages for development and learning.

Document & File Analysis

Upload supported files to summarize content, extract key points, identify insights, and ask questions about your documents.

Learning & Study Tools

Create flashcards and quizzes, simplify complex subjects, and get clear explanations to make studying more effective.

Writing Assistant

Create essays, emails, social posts, marketing content, and other writing while improving grammar, clarity, and tone.

AI Artifacts

Generate ideas, create useful mini-tools, and transform simple concepts into practical AI-powered results.

QR Code Generator

Create QR codes for URLs, text, contacts, Wi-Fi, email, SMS, and other supported information in seconds.

Projects

Organize conversations, files, and ideas into dedicated projects for easier access and a more focused workflow.

Built for Productivity

Use AI to write faster, code smarter, learn more effectively, analyze information, and simplify everyday tasks. Whether you're a student, developer, professional, entrepreneur, or creator, the app adapts to the way you work.

Subscription Plans

Weekly: \$5.99

Monthly: \$14.99

Yearly: \$49.99

Monthly and Yearly subscriptions include a 3-day free trial.

Subscriptions automatically renew unless cancelled through your Apple App Store account settings. You can manage or cancel your subscription at any time.

Disclaimer

This is an independent third-party application and is not affiliated with or endorsed by Anthropic or Claude. Certain features use the Claude API. All trademarks belong to their respective owners.

User reviews mentioning possible fraud or deception (1)

Misleading Design – Mistaken for Official Claude App

1/5 stars · 2026-10-12 · Noleabrt · US App Store

The app looks almost identical to the official Claude app, making it easy to mistake one for the other. I accidentally subscribed believing this was Claude. Contact information is extremely difficult to find, and even the support process feels deliberately confusing. There is no clearly identifiable official website. This raises serious concerns about transparency and misleading presentation. I am requesting a full refund. Users deserve honesty, not confusion designed to drive subscriptions.

Matched terms: misleading, refund, subscription

Version history

1.2.1 · 2026-09-05

- Added Claude models: Sonnet 4.6, Haiku 4.5, and Opus 4.8.
- New AI productivity tools added.
- Faster responses and improved performance.

1.2 · 2026-07-28

- Added Claude models: Fable 5, Sonnet 5, Haiku 4.5, and Opus 4.8.
- New AI productivity tools added.
- Faster responses and improved performance.

1.1 · 2026-06-07

New Claude Models Available

- Claude Opus 4 – Maximum intelligence for complex reasoning and research.
- Claude Sonnet 4.6 – Enhanced performance, speed, and coding capabilities.
- Claude Haiku 4 – Fast, lightweight responses for everyday tasks.

New Features

- AI Writing Tools for emails, articles, summaries, and more.
- Advanced Code Builder with improved coding assistance.
- QR Code Generator for instantly creating custom QR codes.
- Better chat performance and response quality.
- Improved reliability and overall user experience.

Fixes & Improvements

- Bug fixes and stability enhancements.
- Faster model switching and smoother conversations.
- UI refinements across the app.

Thank you for using Claude Chat Assistant!

Full-page browser capture of <https://sites.google.com/view/nbapps-/home>, taken 2026-10-23 08:34:42 UTC. Cookie-consent overlays (the host's, not the page's content) were hidden before the capture, and Google pages were opened in English.

WA Technologies – Powering the Next Generation of Apps

Innovative Mac and iOS applications designed to streamline your workflow, enhance productivity, and bring your ideas to life.

At WA Technologies, we combine cutting-edge technology with intuitive design to create applications that are fast, smart, and effortless to use. Whether you're a creative professional, a business owner, or someone looking for smarter digital tools, our software helps you work smarter, not harder.

From powerful utilities to seamless productivity applications, WA Technologies is committed to making your Mac and iOS devices more efficient, responsive, and enjoyable. Experience the future of digital productivity with innovative solutions designed around your needs.

Our Vision

At WA Technologies, we believe in pushing the boundaries of technology. From sleek Mac utilities to powerful iOS tools, our mission is to deliver high-performance, intuitive, and reliable applications that empower individuals and businesses alike.

We combine modern design, seamless functionality, and innovative technology to create software that feels effortless to use while delivering powerful performance behind the scenes.

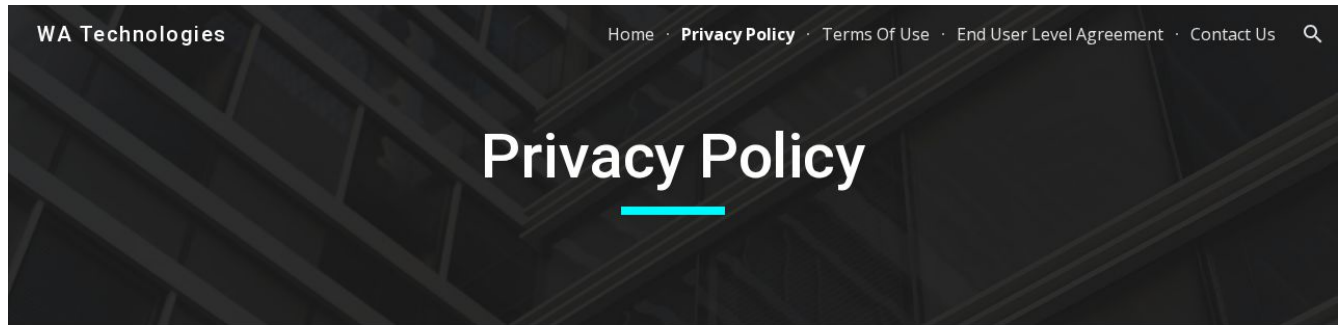

Why Choose WA Technologies

- Innovative Technology – Leveraging the latest frameworks and features for macOS and iOS.
- User-Centric Design – Creating beautiful interfaces with intuitive workflows and user-friendly experiences.
- ① ■ Reliable Performance – Building applications that run smoothly, efficiently, and consistently.
- Continuous Improvement – Delivering regular updates and new features based on user feedback.

WA Technologies — Innovative Software. Seamless Experiences. Smarter Solutions.

Appendix — the privacy policy linked from the listing as displayed

Full-page browser capture of <https://sites.google.com/view/nbapps-privacy-policy>, taken 2026-10-23 08:34:42 UTC. Cookie-consent overlays (the host's, not the page's content) were hidden before the capture, and Google pages were opened in English.

At WA Technologies, your privacy is our priority. This Privacy Policy explains how we handle the information you provide when using our Mac OS and iOS applications.

1. Information We Collect

We are committed to transparency and minimal data usage.

We do not collect or store personal data from users.

The only data processed by the app is content you voluntarily provide, such as:

- Text Input: Content entered for generation or processing
- Images or Files: Media or documents you upload for app features

This data is:

- Accessed temporarily to provide functionality
- Not stored, retained, or saved after processing
- Not shared or sold to any third parties

Information We Do NOT Collect:

- We do not automatically collect personal data such as location, contacts, or messages
- We do not track user activity outside the app
- We do not build user profiles or behavioral data

2. How We Use Your Information

We use the data you provide strictly to:

- Deliver app functionality (e.g., content or image generation)
- Process your inputs and return results
- Improve app performance and fix technical issues

We do not:

- Store your data
- Sell your data
- Use your data for advertising or profiling

3. Third-Party Services - Claude:

Our app may use trusted third-party services to enable certain features, including:

- **Anthropic (Claude AI)** for content processing
- **Google Gemini (Nano Banana)** for image processing

When you use features that involve AI processing:

- Your input (text, images, or files) may be sent temporarily to these services
- Data is processed only to generate results requested by you
- We do not control or store this data after processing

Any data handled by these services is governed by their respective privacy policies.

Claude's Privacy Policy :

<https://www.anthropic.com/legal/privacy>

Google and Google Gemini Policy :

<https://policies.google.com/privacy>

4. Third-Party Services - Google Classroom Integration:

Our app may use trusted third-party services to enable certain features, including:

-Google Classroom (for educational integration)

-AI Processing

When you use AI-powered features:

Your input (text, images, or files) may be sent temporarily to AI services

Data is processed only to generate results such as notes or quizzes

We do not store or control this data after processing

If you use features related to Google Classroom:

-Interaction with Google Classroom is handled through Google's official systems

-We do not collect, store, or access your Google Classroom account data

-Any data shared with Google is governed by Google's own privacy policy

You can review Google's Privacy Policy here:

<https://policies.google.com/privacy>

[Privacy Help](#)

5. Analytics and Crash Reporting

Our applications use **Firebase Analytics** and **Firebase Crashlytics**, services provided by Google, to understand app usage and maintain application stability.

- **Firebase Analytics:** May collect a device or app identifier, app usage information, session activity, feature interactions, and related technical data for measuring application usage and improving the user experience.
- **Firebase Crashlytics:** May collect crash reports, diagnostic information, device and operating system details, app version, and device or app identifiers associated with technical events. This information helps us identify and resolve crashes and improve app reliability.

The information collected through these services is used for **analytics, diagnostics, performance monitoring, and technical improvement**. It is not used to sell personal information or for advertising profiling.

Firebase services are provided by Google and are subject to Google's applicable privacy practices.

Google Privacy Policy: <https://policies.google.com/privacy>

6. Data Security

We implement industry-standard security measures to protect the data you provide. While we strive to keep your information secure, no system can guarantee absolute security.

7. Your Rights

Depending on your location, you may have the right to:

- Access or update the information you provide.
- Request deletion of your data.
- Opt out of marketing communications.

8. Children's Privacy

Our apps are designed for general audiences and are suitable for users aged 4 and above. We do not knowingly collect personal information from children without appropriate parental or guardian consent.

9. Contact Us

If you have questions about this Privacy Policy or how we handle your data, please contact:

Description

AI Chatbot for your Mac
Built on Claude Anthropic Api

Meet AI Chatbot, your intelligent AI assistant for macOS powered by advanced Claude AI models from Anthropic. Chat naturally, upload files and images, use voice input, and get fast, intelligent responses in a beautifully designed desktop experience.

Built using the Anthropic Claude API, AI Chatbot delivers accurate, creative, and helpful conversations for productivity, coding, writing, research, and everyday tasks.

Whether you need help writing content, generating code, analyzing documents, summarizing PDFs, brainstorming ideas, or asking questions, AI Chatbot is designed to make your workflow smarter and faster.

Powered by Claude AI Models

AI Chatbot supports advanced Claude models, including:

- Claude Sonnet
- Claude Opus

- Claude Haiku
- Latest Claude AI technologies via Anthropic API

Key Features

- Smart AI text conversations
- Voice-to-text speech input
- AI voice playback responses
- Upload PDFs, documents, and images
- AI file understanding and analysis
- Web search integration for real-time answers
- Regenerate responses instantly
- Copy code snippets with one click
- Export conversations as PDF
- Full conversation history
- Rename and manage chats easily
- Fast sidebar navigation with recent chats

Built for Productivity

AI Chatbot helps you:

- Write faster and smarter
- Generate and debug code
- Summarize documents and PDFs
- Analyze uploaded files and images
- Brainstorm ideas and content
- Research and learn efficiently
- Improve daily productivity
- Clean macOS Experience
- Designed specifically for macOS with a modern and lightweight interface that feels fast, simple, and intuitive.

Subscription: Subscription payments will be charged to your iTunes account upon confirmation of purchase. Your subscription will automatically renew unless auto renew is turned off at least 24 hours before the end of the current period, and the renewal cost will depend on your chosen plan.

Subscriptions that include a free trial will automatically convert to a paid plan unless canceled before the trial ends. You can manage or cancel auto renewal in your Account Settings at any time. Any cancellation will take effect 24 hours after the final day of your current subscription period, after which your account will be downgraded.

'Disappointed in PA

I took a membership with Ai chatBot as it was highly recommended, I asked ChatBot to do something that was not at hard to do - it would involve going to group of resources put out by medical schools regarding their students and faculty. It would require some cross checking - which would have bee enough for me to do [more](#)

Not authentic claude

18 Sept

★☆☆☆☆

Eve's apple

I recently purchased the upgrade plan in this for 90 euro but it's not showing any upgrade and there is no response from the support team as well. Just putting it up now to tell this is a scam.

Appendix — the privacy policy linked from the listing as displayed

Full-page browser capture of <https://sites.google.com/view/ai-chat-bot-ask-ai-assistant/privacy-policy>, taken 2026-10-23 08:26:54 UTC. Cookie-consent overlays (the host's, not the page's content) were hidden before the capture, and Google pages were opened in English.

Privacy Policy

This privacy policy applies to the AI Chat Bot: Ask AI Assistant App (hereby referred to as "Application") for mobile devices that was created by Muhammad Husnain (hereby referred to as "Service Provider") as a Freemium service. This service is intended for use "AS IS".

Information Collection and Use

The Application collects information when you download and use it. This information may include information such as

- Your device's Internet Protocol address (e.g. IP address)
- The pages of the Application that you visit, the time and date of your visit, the time spent on those pages
- The time spent on the Application
- The operating system you use on your mobile device

The Application does not gather precise information about the location of your mobile device.

The Service Provider may use the information you provided to contact you from time to time to provide you with important information, required notices and marketing promotions.

For a better experience, while using the Application, the Service Provider may require you to provide us with certain personally identifiable information. The information that the Service Provider request will be retained by them and used as described in this privacy policy.

Third Party Access

Only aggregated, anonymized data is periodically transmitted to external services to aid the Service Provider in improving the Application and their service. The Service Provider may share your information with third parties in the ways that are described in this privacy statement.

Please note that the Application utilizes third-party services that have their own Privacy Policy about handling data. Below are the links to the Privacy Policy of the third-party service providers used by the Application:

- [Firebase Crashlytics](#)

The Service Provider may disclose User Provided and Automatically Collected Information:

- as required by law, such as to comply with a subpoena, or similar legal process;
- when they believe in good faith that disclosure is necessary to protect their rights, protect your safety or the safety of others, investigate fraud, or respond to a government request;
- with their trusted services providers who work on their behalf, do not have an independent use of the information we disclose to them, and have agreed to adhere to the rules set forth in this privacy statement.

Opt-Out Rights

You can stop all collection of information by the Application easily by uninstalling it. You may use the standard uninstall processes as may be available as part of your mobile device or via the mobile application marketplace or network.

Data Retention Policy

The Service Provider will retain User Provided data for as long as you use the Application and for a reasonable time thereafter. If you'd like them to delete User Provided Data that you have provided via the Application, please contact them at hasnain.apps.info@gmail.com and they will respond in a reasonable time.

Children

The Service Provider does not use the Application to knowingly solicit data from or market to children under the age of 13.

The Application does not address anyone under the age of 13. The Service Provider does not knowingly collect personally identifiable information from children under 13 years of age. In the case the Service Provider discover that a child under 13 has provided personal information, the Service Provider will immediately delete this from their servers. If you are a parent or guardian and you are aware that your child has provided us with personal information, please contact the Service Provider (hasnain.apps.info@gmail.com) so that they will be able to take the necessary actions.

Security

The Service Provider is concerned about safeguarding the confidentiality of your information. The Service Provider provides physical, electronic, and procedural safeguards to protect information the Service Provider processes and maintains.

Changes

This Privacy Policy may be updated from time to time for any reason. The Service Provider will notify you of any changes to the Privacy Policy by updating this page with the new Privacy Policy. You are advised to consult this Privacy Policy regularly for any changes, as continued use is deemed approval of all changes.

This privacy policy is effective as of 2026-02-03

Your Consent

By using the Application, you are consenting to the processing of your information as set forth in this Privacy Policy now and as amended by us.

Contact Us

If you have any questions regarding privacy while using the Application, or have questions about the practices, please contact the Service Provider via email at hasnain.apps.info@gmail.com.
