BRANDING AND PRIVACY WARNING · MEETING ASSISTANTS

Join for Team Meetings: a new pitch, familiar Zoom cues.

App Scam DB assesses this as another suspected example of the pattern used by fraudsters to bypass App Review: establish a harmless-looking utility, then turn the existing listing into a more aggressively marketed, brand-led paid app. Earlier catalog text retains ZMeet/ZWall labels and a Zoom-background focus; Join now promotes Zoom, Teams and Meet using imagery reminiscent of Zoom's older camera icon. Its Data Not Collected label conflicts with the linked MAZ policy. This case documents the rebranding and disclosure concerns; it does not independently establish a deliberately deceptive original submission.

By Alex Kleber · Published 2026-11-04 · Updated 2026-11-04

VISUAL EVIDENCE

Compare Join with Zoom's older camera icon

The historical reference shows Zoom's white camera on a rounded blue background. Join uses that familiar camera-and-blue combination with an added diagonal arrow and altered proportions. The current official Zoom wordmark icon is included for context. E18 identifies the dated historical source.

Join · Muhammad Abdullah Zahid

WHAT YOU NEED TO KNOW

A documented change of pitch, a familiar brand cue and conflicting privacy disclosures.

01

The product pitch has changed

Earlier catalog text promotes a Zoom-background library under ZMeet/ZWall labels. The current Apple listing promotes a cross-platform meeting organizer. Its 2.0 release notes explicitly announce the broader scope on 30 October 2026. The numeric app ID and Zoom-background bundle identifier remain.

Current Apple record and release notes; earlier indexed catalogs.

E2 E5 E13 E14

02

A warning sign of gradual repackaging after launch

This resembles the pattern highlighted in earlier App Scam DB investigations: an innocuous-looking utility builds a store presence before later updates adopt a broader, more brand-led paid offer. Here the evidence establishes repositioning, brand-confusion concerns and inconsistent privacy disclosures. The original submission and an intentional review bypass remain unverified.

App Scam DB assessment based on the documented sequence; earlier reporting is contextual.

E5 E9 E13 E14 E19

03

The older Zoom camera icon is the relevant visual reference

The September 2022 guide shows the familiar white camera and right-facing lens on blue. Join preserves that combination, adds a diagonal arrow through the camera body and changes the proportions. App Scam DB assesses the overall presentation as borrowing recognition from Zoom's older identity. The images are not pixel-identical; the current Zoom wordmark alone would miss this historical comparison.

Current Join original; dated historical Zoom reference; current official Zoom artwork.

E2 E5 E8 E18

04

The privacy explanations do not line up

Apple displays Data Not Collected. The linked MAZ policy describes user information, automatic IP/device/usage collection, advertising/analytics partners and retention. It includes an explicit mobile-app section, not just website-cookie wording. The publisher leaves buyers to determine which account applies to this app.

Apple privacy label and the complete linked policy.

E2 E9

05

Six products share one verified Apple account

Every app in the reproduced portfolio resolves to developer ID 1863971071 and the same support-site identifier. This is a confirmed account-level connection. No independently verified second developer account or business country emerged from the checked identifiers.

Apple catalog and exact-ID lookups; identifier-based OSINT.

E6 E7 E17

WHAT IT COSTS

Monthly and yearly plans have the same displayed price.

US: monthly $9.99, yearly $9.99, lifetime $19.99. DE/IE: monthly €9.99, yearly €9.99, lifetime €22.99. Twelve monthly payments would total $119.88 or €119.88 if prices stayed unchanged, compared with the separately listed yearly offer. Equal feature entitlements were not verified. No weekly plan is listed for this app and no purchase was made.

Prices displayed in the saved listing

Purchase option	United States	Germany / Ireland
Monthly Meetings	$9.99 / month	€9.99 / month
Yearly Meetings	$9.99 / year	€9.99 / year
Lifetime Meetings	$19.99	€22.99

THE DEVELOPER WEBSITE

A Google Sites legal hub shared by six apps

The listing links to MAZ privacy, terms and contact pages hosted on Google Sites. The root also serves privacy text, and the contact page provides a support route. The privacy and terms repeatedly use a generic APP placeholder instead of explaining this meeting product. The same hub appears across the six verified apps.

E9; E10; E11; E12. Hosting alone does not establish fraud; the disclosure content is the issue.

Open the recorded developer website ↗

Before and after: what the public record supports

The earlier public-catalog text is set beside the current Apple record below. The reliable dated change is Apple's version 2.0 release. Catalog version dates do not establish the exact rename date; catalog fields can refresh separately.

The older name and product emphasis survive in indexed catalog text. Earlier image files were not recovered; the available icon and promotional imagery belong to the current listing.

Earlier indexed catalog text versus the current Apple listing

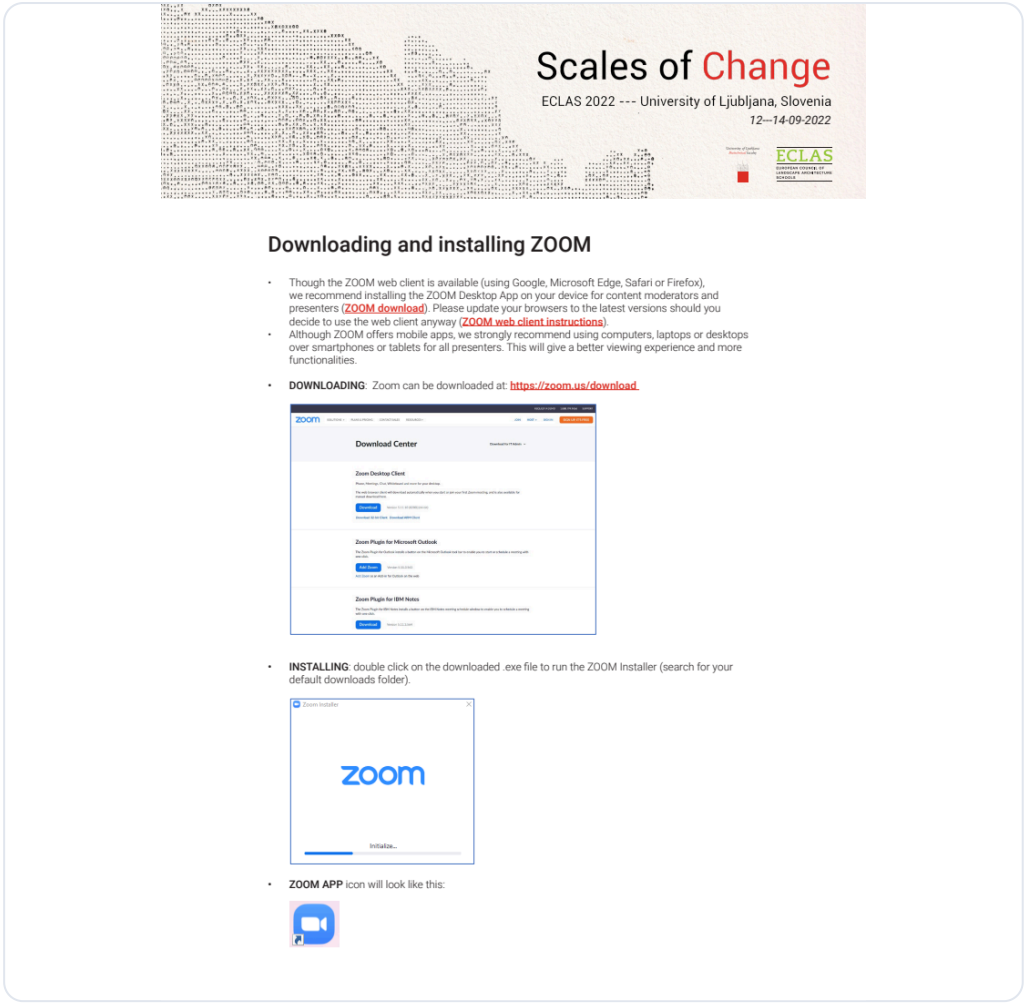

Field	Earlier indexed catalog	Verified Apple listing · 4 November 2026
Title	ZMeet: App for Meetings	Join for Team Meetings
Description identity	ZWall: App for Meetings	Join for Team Meetings
Main emphasis	Zoom backgrounds, with joining and scheduling	Zoom, Teams and Meet organizer; calendar and reminders
Promotion count	Four entries	Six original Apple promotions
Version context	Catalog shows 1.3; another indexed record shows 1.4	2.0, released 30 October 2026
Earlier artwork	Earlier image unavailable	Current original icon and screenshots shown

E13; E14; E5; E15.

The historical icon comparison and its dated source

A comparison only with Zoom’s current wordmark overlooks its older, widely recognized video-camera design. The 2022 installation guide supplies a dated example of that older icon. Join’s additional arrow does not remove the shared blue-and-white camera cue.

App Scam DB assesses this resemblance alongside the Zoom-background origins, current meeting-platform promotion and independent seller identity. The historical reference belongs to Zoom; it does not establish what Join’s own icon looked like at launch.

Complete first page of the 12–14 September 2022 ECLAS guide. The line identifying the Zoom app icon and the original camera image remain visible. E18.

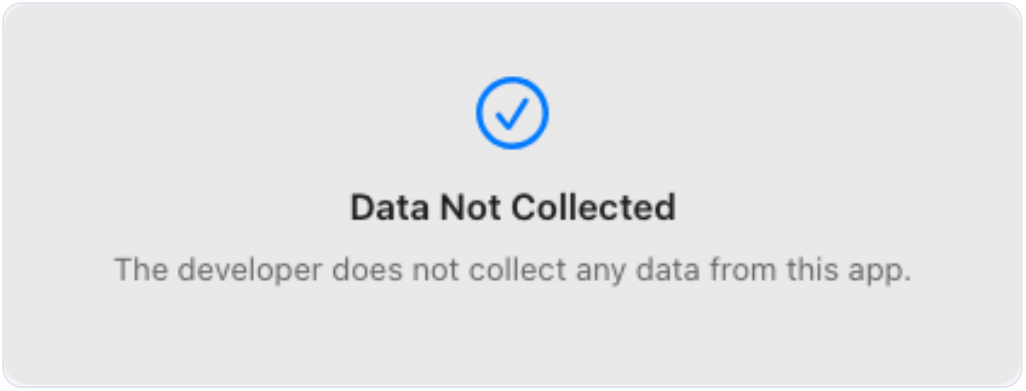

Read the dated 2022 icon reference · PDF ↗

E2; E5; E8; E18.

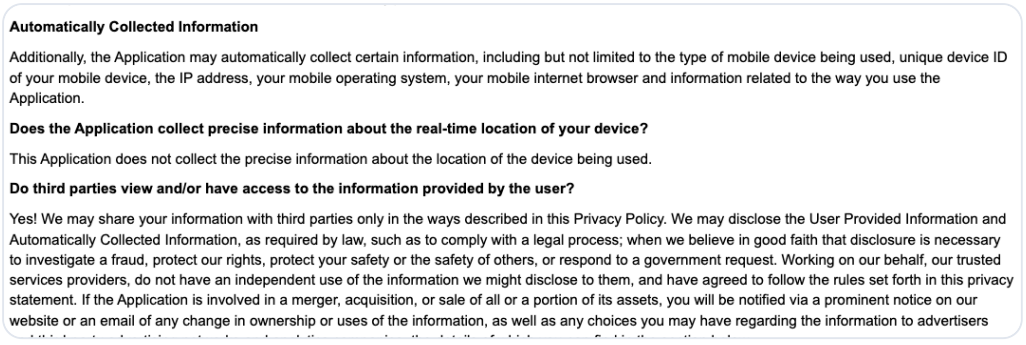

“Data Not Collected” versus a broad collection policy

The store label makes a clear promise. The linked document’s app-specific portion describes automatic device, IP, operating-system and usage information, possible advertising/analytics sharing, user-provided information and retention that can extend to 24 months. The generic APP placeholder remains throughout.

This is a disclosure conflict requiring clarification. The policy may be an overbroad template, or the label may fail to describe applicable collection. The app was not installed and no traffic was inspected, so these documents do not prove that any specific data was transmitted.

Native Apple privacy card, captured 4 November 2026. E2.

Automatically Collected Information

Additionally, the Application may automatically collect certain information, including but not limited to the type of mobile device being used, unique device ID of your mobile device, the IP address, your mobile operating system, your mobile internet browser and information related to the way you use the Application.

Does the Application collect precise information about the real-time location of your device?

This Application does not collect the precise information about the location of the device being used.

Do third parties view and/or have access to the information provided by the user?

Yes! We may share your information with third parties only in the ways described in this Privacy Policy. We may disclose the User Provided Information and Automatically Collected Information, as required by law, such as to comply with a legal process; when we believe in good faith that disclosure is necessary to investigate a fraud, protect our rights, protect your safety or the safety of others, or respond to a government request. Working on our behalf, our trusted services providers, do not have an independent use of the information we might disclose to them, and have agreed to follow the rules set forth in this privacy statement. If the Application is involved in a merger, acquisition, or sale of all or a portion of its assets, you will be notified via a prominent notice on our website or an email of any change in ownership or uses of the information, as well as any choices you may have regarding the information to advertisers

Native browser capture of the linked policy's app-specific collection section. E9; 4 November 2026.

E2; E9.

The developer's six-app portfolio

Muhammad Abdullah Zahid is the seller recorded by Apple. All six app records share artist ID 1863971071, and all six descriptions link the same MAZ Google Sites legal/support hub. These exact identifiers document one account; a shared first or last name would not.

The Excel converter titles contain the Excel brand and a registered-trademark symbol. That presentation merits a rights/affiliation check; compatibility utilities are not automatically counterfeit. No permissions decision or separate misconduct finding was obtained for these five related apps.

What is established about the publisher

The account, seller name, six app IDs, shared MAZ copyright and common support hub are directly linked by Apple's own records. No company registration or separately identified legal entity was established from the checked pages. The Google Sites contact page is a working support route, but the root and privacy pages do not provide a substantive product/company presentation.

Germany and Ireland both display non-trader statements and no declared business country. Professional profiles with the same name cannot establish the seller's location or employment without an independent identifier bridge. No corroborated second Apple account was found.

Developer connection assessment

Connection	Evidence	Assessment
Six Apple apps	Same artist ID 1863971071	Confirmed same account
MAZ support/legal site	Same URL identifier in all six descriptions	Confirmed shared support infrastructure
Second developer account	No independent identifier match established	Not established
Country/company	No trader country or account-linked registry entity obtained	Unknown

E3; E4; E7; E11; E12; E17.

Why this raises the staged-rebranding concern

The pattern at issue is an apparently innocuous utility being turned into a more aggressively marketed paid app after it has established an App Store presence. App Scam DB regards Join's change of pitch, older-Zoom visual cues and unresolved privacy disclosure as warning signs of that pattern. The earlier catalog already advertised Zoom joining and scheduling, so the evidence does not show a background-only app suddenly acquiring every meeting feature.

The current listing expressly disclaims affiliation with Zoom, Microsoft and Google. A disclaimer does not itself grant permission to imitate a brand or resolve misleading presentation. Compatibility references can be legitimate; the full presentation and any permissions require assessment.

Apple's version 2.0 notes openly announce the expanded scope. Without the original submission, a dated launch capture or an Apple decision, it is not established that this developer deliberately fooled App Review or that the app itself is proven fraud. The scam-development pattern is an editorial concern, not a verified enforcement finding against this seller.

Earlier generic-to-branded case in App Scam DB ↗

▼ View the dates and timeline

10 February 2026

App first released

Apple records the first release for app 6758665793. Its original launch name/icon were not independently recovered.

Earlier indexed catalog · version 1.3

ZMeet heading / ZWall description

Secondary catalog text emphasizes a Zoom-background library. Its version-update label is not a verified capture or rename date.

10 July 2026

Version 1.4

Apple dates this release. An indexed exact-ID catalog retains a Zoom/background-focused description, but its fields may have refreshed at different times.

30 October 2026

Version 2.0 broadens the pitch

Apple release notes announce multi-platform meetings, calendar, reminders and a refreshed dashboard.

4 November 2026

Current record checked

US/DE/IE listings, six original promotions, linked legal pages and all six exact portfolio app records examined.

CHECK THE SOURCES

The records behind this report.

The complete supplied 14-page analysis follows the written investigation, including the US/IE captures and its three-page privacy appendix. The full linked policy was separately read. Original source checksum independently calculated; the raw ZIP referenced inside the source analysis was not supplied. Earlier-name evidence is secondary search-indexed catalog text, not a dated pre-change Apple screenshot. The original icon/screenshot history at launch remains unverified. No app installation, payment, login, traffic interception, developer contact or complaint submission was performed. The historical Zoom icon is sourced separately from a dated 2022 guide and is not represented as recovered Join launch artwork.

Retrieved 2026-11-04T10:23:26.716307+00:00; HTTP 200. Name Join for Team Meetings; bundle zoom.meeting.backgrounds; artist ID 1863971071; version 2.0 release 30 October 2026 at 13:26:43 UTC. App first released 10 February 2026. Original artwork and six screenshot URLs preserved.
Open source ↗

E6 / Apple developer catalog: six apps

Retrieved 2026-11-04T10:23:26.681709+00:00; HTTP 200. All six visible products are reproduced below. Earliest release is an app-release date, not the developer-account creation date.
Open source ↗

E7 / Apple lookup: all six exact portfolio IDs

Retrieved 2026-11-04T10:26:28.779350+00:00; HTTP 200. Every returned software record identifies the same artist ID 1863971071. All six descriptions link the same maz-apps support/legal site. No second Apple account is implied.
Open source ↗

E8 / Official Zoom reference

Retrieved 2026-11-04T10:23:27.074927+00:00; HTTP 200. App 546505307 is Zoom Workplace by Zoom Communications, Inc. The original official icon is shown alongside the investigated app. The official reference is an iPhone/iPad listing, not a like-for-like native Mac feature comparison.
Open source ↗

E9 / Linked MAZ privacy policy

Retrieved 2026-11-04T10:23:27.249836+00:00; HTTP 200. Full document read, including its separate Mobile Apps Privacy Policy portion. It discusses user-submitted content, automatic device/IP/usage data, advertising/analytics and possible retention up to 24 months. App Store says Data Not Collected. The policy does not clearly identify which practices apply to this app.
Open source ↗

E10 / MAZ terms and conditions

Retrieved 2026-11-04T10:23:27.234632+00:00; HTTP 200. Generic APP terms refer to app subscriptions, Apple and Google Play billing and refund processes. No specific legal company, registration or business country established from the checked pages.
Open source ↗

E11 / MAZ support page

Retrieved 2026-11-04T10:23:27.455496+00:00; HTTP 200. Working Google Sites contact page. Its public support address matches the App Store release notes. No form was submitted and no developer was contacted.
Open source ↗

E12 / MAZ root page

Retrieved 2026-11-04T10:23:27.253878+00:00; HTTP 200. The root serves the generic privacy text rather than a separate company/product presentation. No developer-website button appears on the checked primary listing; the legal/support links are in its description.
Open source ↗

E13 / Earlier catalog text: ZMeet / ZWall

Search-indexed AppAgg entry 41398044 retains a ZMeet heading, ZWall description, Zoom-background emphasis, four screenshot entries and version 1.3/update label 2 June 2026. Direct/browser retrieval serves a minimal shell. This is secondary indexed text, not a dated Apple capture; no earlier artwork pixels were recovered.
Open source ↗

E14 / Intermediate catalog text: Zoom-focused description

Search-indexed AppRank entry for the exact numeric app ID shows version 1.4, update label 10 July 2026, and the current Join title with the earlier Zoom/background-focused description. Direct retrieval now carries the updated content, so the indexed result is a secondary historical clue, not a frozen primary snapshot.
Open source ↗

E15 / Wayback checks and the supplied current replay

The supplied 4 November 2026 replay loaded. An exact-query CDX retry returned only that capture; old-slug CDX and a canonical timemap returned empty lists. Other broad CDX requests failed with HTTP 503 or timed out. Earlier availability probes returned empty results or HTTP 429. No dated pre-change artwork pair was verified.
Open source ↗

E16 / Apple App Review Guidelines

Retrieved 2026-11-04T10:24:37.067309+00:00; HTTP 200. Accurate presentation 2.3, copycats 4.1, intellectual property 5.2.1 and privacy disclosure 5.1.1 are relevant review provisions. No Apple enforcement finding was obtained.
Open source ↗

E17 / Developer and cross-account investigation

Exact publisher, artist/app/bundle IDs, support address and Google Sites identifier searched. Existing published reports and the monitored-app record corpus checked for the same support identifiers; no additional account match found. Public professional profiles sharing the name were not tied to this seller by an app ID, the support address or a publisher-linked URL and are not attributed to him. No independent fraud case, company identity or country was established.
Open source ↗

E18 / Historical Zoom camera icon: September 2022 conference guide

Guide dated 12–14 September 2022, page 1. Its installation instructions expressly identify the pictured symbol as the Zoom app icon. The embedded camera icon is extracted without redrawing; the complete first page is reproduced as provenance. Retrieved 2026-11-04T10:50:55.225127+00:00. This is a historical Zoom reference, not an earlier version of Join.
Open source ↗

`SHA-256: e885b8cfc98db38be95b42ea639dea9e10e92c1f30922c482ebc7d0746b477a9`

E19 / Earlier App Scam DB generic-to-branded investigation

Existing published report documents an earlier generic study-chatbot listing followed by Claude/Anthropic branding. Used as context for a recurring rebranding concern, not evidence of shared ownership or of this app's original review submission.

What's New

Join for Team Meetings is now a complete meeting companion for macOS.

- Support for multiple meeting platforms
- Create, schedule, join, and start meetings directly from the app
- New calendar view to see your entire week at a glance
- Smart reminders to help you never miss a meeting
- Apple Reminders syncing
- Custom backgrounds for a better meeting experience
- Improved dashboard and overall app experience
- Bug Fixes & UI Improvements

Thank you for using Join for Team Meetings. I'd love to hear your feedback and ideas for future updates at maz.contactus@gmail.com

Description

Join, schedule, create, and start meetings across multiple platforms, all from one convenient app. Whether you use Zoom, Teams, or Meet, manage your meetings from a single place without switching between different apps.

Stay organized with a calendar view that gives you a clear overview of your upcoming meetings for the entire week. Smart reminders help you stay on top of your schedule, while Apple Reminders syncing makes it easy to keep your meeting tasks organized across your devices.

Make a better impression in every meeting with custom backgrounds. Choose the right background to create a professional, polished, or personalized look whenever you join a call.

Key Features:

- Join, schedule, create, and start meetings from the app
- Support for multiple meeting platforms
- Calendar view to see your entire week at a glance
- Smart reminders for upcoming meetings

• Sync meetings with Apple Reminders
• Custom backgrounds for a better meeting experience
• Manage your meetings from one convenient dashboard

An additional in-app purchase is required to unlock the full content.

This is a standalone app and is not endorsed by, affiliated with, or associated with Zoom Video Communications, Inc., Microsoft Corporation, or Google LLC.

Version history

2.0 · 2026-10-30
Join for Team Meetings is now a complete meeting companion for macOS.

- Support for multiple meeting platforms
- Create, schedule, join, and start meetings directly from the app
- New calendar view to see your entire week at a glance
- Smart reminders to help you never miss a meeting
- Apple Reminders syncing
- Custom backgrounds for a better meeting experience
- Improved dashboard and overall app experience
- Bug Fixes & UI Improvements

Thank you for using Join for Team Meetings. I'd love to hear your feedback and ideas for future updates at maz.contactus@gmail.com

1.4 · 2026-07-10
This update includes bug fixes and general enhancements.

Appendix — the privacy policy linked from the listing as displayed

Full-page browser capture of https://sites.google.com/view/maz-apps/privacy, taken 2026-11-04 10:19:05 UTC. Cookie-consent overlays (the host's, not the page's content) were hidden before the capture, and Google pages were opened in English. Only the first 3 pages are shown; the whole capture is in the evidence archive.

This Privacy Policy has been compiled to serve users who are concerned about how their 'Personally Identifiable Information (PII)' can be used online. As per US privacy law and information security, PII is information that may be used on its own or with other information to identify, locate, or contact an individual. We recommend you to read the policy carefully to get a clear understanding of how we collect, use, or handle your PII according to our website.

What Information does APP collect about me?

Whenever a client interacts with our Software, App, Site, and/or Services, we may collect a single Information or in combination with other data, could be used to identify you ("Personal Data"). There will also be some Information that we collect that is kept in a way that cannot be linked back to you ("Non-Personal Data").

Data you provide us whenever you create an account

When you register to use APP services, you willingly share with us certain Personal Data, including the following:

Your email address, username, contact, and language preferences. When logging into APP with a social networking credential, such as with your Google+ or Facebook account, we will ask for your consent to access basic information from that account, such as your email address and name. If you want to stop sharing that information with us, you may do so at any time by removing APP's access to that account.

If you are a paying client, you should provide your payment information. This is needed to fully deliver any marketable transaction on the APP site. We use the data to process and fulfill your transaction. If you select PayPal® to pay for your order, you will have to provide your credit card number directly to PayPal®. The privacy policy of PayPal® will apply to the information you provide on the PayPal® website.

What other Information we collect from you?

APP collect this Information as you use the Site, Software, App, and/or Services:

User Content: This includes all text, documents, or other content or information uploaded, entered, or otherwise transferred by you as part of your use of our Services and/or Software.

What information is automatically collected?

There is certain information about the devices you use to connect with APP and your use of the Site, Software, App, and/or Services are automatically registered in our systems, including the following:

Your location: This is the geographic area or place where you use your devices such as your computer, cellphone or tablet (as specified by an Internet Protocol [IP] address or similar identifier) when interacting with our Site, Software, App, and/or Services.

Your log data or information: Same like other websites, our servers automatically gather data when you access or use our Site, Software, App, and/or Services and store it in log files. This log data may include your IP address, browser type and settings, browser configuration, the date and time of use, cookie data, and language preferences.

Your usage information: This is information about the APP Site, Software, App, and/or Services you use and how you use them. We may also attain data from our third-party affiliates and service providers to examine how consumers use our Site, Software, App, and/or Services. For example, we will have an idea on the number of users who are accessing a specific page on the Site and at which links they normally clicked on. We will use this collected data to better understand and to help in optimizing the Site.

Your device information: These are data gathered from your computer or mobile device which include the type of hardware and software you are using (such as your operating system and browser type), and also unique device identifiers for devices that are using the APP Software.

Cookies: Data gathered from cookies are explained in the "Does APP use cookies?" section and in our Cookie Policy.

When does APP collect information?

We collect information from you when you fill out a form, subscribe to a newsletter, place an order, use live chat, open a support ticket, and/or enter any information on our site.

How does APP use my Information?

We at APP process, use, and record your Information as necessary to be able to carry out our contract with you and for our legitimate business interests, including the following:

- to communicate and build a connection with you about your use of our Site, Software, and/or Services, our product and service announcements, software updates if any, and to be able to give feedback to your requests for assistance which includes providing you with account verification support in the event that you are having problems with accessing your account or to follow up with you after correspondence.
- to help us manage our Site, Software, App, and/or Services, validate users for security purposes, offer tailored user features and access, process and deliver transactions, conduct reviews and study, develop upcoming features, and improve the algorithms and performance of our Site, Software, App, and/or Services.
- to send you direct email notifications and special offers about APP services, from which you can unsubscribe at any time you desire. For more details about this, kindly go this section - "Will APP send me emails?" If you are someone that resides in the European Economic Area (EEA), we will only send you promotional materials if you permit us to do so from the time you create your account or any point thereafter.
- to determine cumulative statistics on the quantity of unique devices using our Site, Software, App, and/or Services, and to identify and prevent misuse and fraud.
- To process your transactions quickly

- To process your transactions quickly
- to show User Content related with your account and to ensure that it is accessible to you when you use our Services.

Right to use Data and Disclosure

Does APP ever share my Information?

APP only disclose Personal Data to third parties when:

We work with service providers who help us in fulfilling business operation's requirements, these include hosting, improving, and carrying our Services. We also use service providers for specific services and functions such as customer support services, email communication, and analytics. These service providers may only access, process, or record Personal Data in accordance to our instructions and to accomplish their duties to us.

- We have your permission to share your Personal Data.
- We believe it is important to investigate possible violations of the Terms of Service, to implement those Terms of Service, or where we believe it is necessary to probe or take action regarding unlawful activities, suspected fraud, or potential threats against property, persons, or the methods on which we operate our Site, Software, App, and/or Services.
- We ascertain that the preservation, access, or disclosure of your Personal Data is mandatory by law to safeguard the rights, property, or personal safety of APP and the users of our Site, Software, App, and/or Services, or to respond to lawful requests by any public authorities.
- We need to do so in relation with an acquisition, merger, reorganization, bankruptcy, public offering of securities, selling of some or all of our assets. In such cases some or all of your Personal Data may be transferred or shared with another entity, subject to this Privacy Policy.
- We may impart or disclose Non-Personal Data to third parties and publicly - for example, to affiliates under agreement with us, or as part of progress reports which we may provide to users.

Does APP get profit for my Personal Data by selling them?

No, APP does not sell or rent your Personal Data.

Does APP use cookies?

Cookies are used by web browsers to provide personalized content and remember login credential and account settings. APP uses cookies and similar technologies, including web beacons and tracking pixels. These are needed to collect usage and analytic data that helps us provide our Site, Software, App, and/or Services to you and also to aid in delivering ads for relevant APP products and services to you when you browse certain pages on the Site and then go to third-party sites. APP does not share your Personal Data with third parties for the purpose of allowing them to deliver their advertisements to you. For more information on cookies and how APP uses them, please see our Cookie Policy.

We use cookies to:

- Help remember and process the items in the shopping cart.
- Understand and save preferences of users for future visits.
- Track & analyze our user's activity, so we can offer a better experience.

You can choose to turn off all cookies, or you can choose to have your computer warn you whenever a cookie is being sent. This can be done through your browser settings. Since every browser is different, go to your browser's Help Menu to learn how you can correctly modify cookies. If you choose to turn cookies off, some of the features may not function properly.

Third-party Disclosure

We do not sell, trade, or otherwise transfer to outside parties your Personally Identifiable Information.

Third-party Links

- We use third-party links in our Blog Posts to help improve the content for our readers.
- We use third-party links in our Privacy Policy page in order to guide our visitors how we handle PII and cookies.

Please be aware that we cannot guarantee the authenticity of any external links that you may visit. It is recommended that you always do your own research before visiting any third-party link.

Google

We use Google Adsense Advertising on our Software, App, Site, and/or Services. Google's Advertising Principles can sum up Google's advertising requirements. They are introduced to provide a better experience for users.

For further information visit: https://support.google.com/adwordspolicy/answer/1316548?hl=en

As a third-party vendor, Google makes use of cookies to serve ads on our Software, App, Site, and/or Services. Google's use of the DART cookie enables it to serve ads to our users on the basis of their previous visits to our Software, App, Site, and/or Services and other sites. If you want to opt-out of the use of the DART cookie, you can do so by visiting the privacy policy of Google Ad and Content Network.

Analytics & Marketing

We, along with third-party vendors such as Google make use of first-party cookies (such as Google Analytics cookies) and third-party cookies (such as DoubleClick cookies) or various other third-party identifiers together in order to compile data about user interactions with ad impressions and other ad service functions as they relate to our Software, App, Site, and/or Services.

Opt-out

Using the Google Ad Settings page, you can set preferences for how Google advertises to you. Alternatively, you can opt out through the Network Advertising Initiative Opt Out page or through the Google Analytics Opt Out Browser add on.

For further information visit: www.allaboutcookies.org

How to delete, modify or disable cookies

You can delete cookies or disable their use by following your browser instructions:

- Firefox
- Microsoft Edge
- Internet Explorer 11
- Google Chrome
- Safari (iOS)
- Android (Chrome)
- the latest Safari for Mac
- Safari 8 (Yosemite)
- Safari 6/7 (Mavericks)
- Safari 5.1 (OS X Lion)

If you use a different browser, then follow the instructions from its provider.

How do plugins and third-party apps work?

Some third-party applications and services that partners with us may ask for consent to access your Information. Such applications will provide you with notice and request your permission in order to obtain access or information. It would be best to consider your selection of such applications and services, and your permissions, carefully.

Some third parties' plugins or embedded content our Site , App, and/or Software, such as Facebook "Like" buttons, may allow their administrators to know that you have visited the Site, and they may use this information with other data they have gathered about your visits to other websites or services on the internet that can identify you.

The data collected by third parties through these plugins and applications is subject to each parties' own policies. We strongly encourage you to read those policies carefully and understand how other entities use your data.

Will APP send me email notifications?

There will be times when we may send you information about special offers, software updates, and other product announcements. We also may want to send you with information about products and services from our business affiliates. But, you may disable such communications at any time by clicking the "unsubscribe" button that can be found within APP emails and also by changing your contact preferences. All APP account holders will still receive email notifications that are related to our Services, even if you opt to unsubscribe from these emails.

For users coming from EEA:

We will only deliver promotional communications to users located in the EEA with your prior consent. Kindly see the section "For EEA users" below for more details.

Will APP ever make any of my Personal Data or User Content public?

No, we do not share Personal Data or User Content with the exception of the limited circumstances as stated in the "Does APP share my Information?" section of the Policy.

How does APP handle Do Not Track signals?

We honor Do Not Track signals and do not track, use advertising, or plant cookies when DNT browser mechanism is in place.

APP also does not allow third-party behavioral tracking.

COPPA (Children Online Privacy Protection Act)

Does APP get information from children?

The Children's Online Privacy Protection Act put parents in control. APP does not knowingly get personal information from children under the age of 13. In the event that it has come to our knowledge that we have acquired personal information from a child that is younger than 13 years of age, we will take necessary measures to take out that information from our systems. If you are under the age of 13, please do not provide any personal information through the Site, Service, App, and/or Software. We also encourage parents and their legal guardians to closely monitor their children's Internet usage. Another way to enforce this Policy is by informing their children to never provide any personal information through the Site, Service, App, and/or Software without their permission.

Data transfer, storage, retention, and deletion

Where is my Information stored when shared with APP**?**

All information shared to APP will be transferred to, processed, and stored in the United States. Whenever you use our Software on any of your device, User Content you save will be kept locally on that specific device and then synced with our servers. But, if you post or transfer any Information to or through our Site, App, Software, and/or Services, that means you are giving consent to such Information, including Personal Data and User Content, being hosted and accessed in the United States.

How safe is my Information?

APP is dedicated to protecting the security of your Information and takes necessary precautions to protect it. However, know that Internet data transmissions, whether it is wired or wireless, cannot be guaranteed to be 100% safe and as a result, we cannot ensure the security of Information you transmit to us, including Personal Data and User Content; therefore, you acknowledge that you do so at your own risk.

We at APP use industry-standard encryption to safeguard your data in transit. This is commonly referred to as secure socket layer ("SSL") technology or also known as transport layer security ("TLS").

By the time we receive your data, we keep it on our servers using a combination of physical, technical, and logical security measures. The security of the data stored locally in any of our Software installed on your device requires that you make use of the safety features of your device. It is highly recommended that you take the necessary steps to secure all devices that you use in connection with our Site, Software, App, and Services.

If APP learns of a security system breach, we may send you a notification to provide information on protective steps, through the email address that you have provided to us. We may also post a notice on the Site to inform our users.

How can I erase my Personal Data from APP?
