SUSPECTED SCAM · GOOGLE BRAND IMITATION · AI STUDY ASSISTANTS

Five Notebook lookalikes. One Google identity.

Another five apps with misleading Google-style branding have made it through Apple's App Review team and onto the Mac App Store. They imitate the recognizable nested-arch identity of NotebookLM, now Gemini Notebook, while selling separate subscriptions. This is a suspected-scam warning with a documented consumer consequence: one buyer reports paying because they believed they were buying Google's product, and the developer acknowledges the confusion. A second reviewer alleges impersonation. The five accounts are distinct; a common operator has not been established.

By Alex Kleber · Published 2026-11-04 · Updated 2026-11-04

VISUAL EVIDENCE

Which one is Google's app?

The first icon is the genuine Google product. The other five are original icons from the independently published Mac apps, checked 4 November 2026. Notice the repeated blue/lilac arch structure and central opening.

WHAT YOU NEED TO KNOW

A familiar Google identity can lead to the wrong purchase.

01

Five sellers repeat Google’s distinctive arch motif

These five independently published Mac apps were accepted for distribution through Apple’s App Store despite a repeated resemblance to Google’s study product. Their icons combine overlapping blue-to-purple arches, a central opening and pale rounded squares; their names surround Notebook and LM with study keywords. One uses NotebookLM outright. Together, those cues can make a separate subscription product appear to be the Google app a user searched for.

Original Apple artwork and Google’s dated launch illustration.

E12 E13 E7 E8 E9 E10 E11

02

Confusion has already reached paying users

This is more than a theoretical resemblance. A reviewer on Kajan’s listing reports purchasing the app believing it was Google NotebookLM. The developer publicly acknowledges the name/similarity confusion and explains that the app is separate. A second reviewer on Muhammad Islam’s listing alleges impersonation. That is concrete evidence of reported consumer deception, although it does not independently prove every user’s experience or deliberate fraud across all five apps.

Native Apple review captures; Kajan review dated 21 August, reply 31 August.

E11 E9

03

Weekly subscriptions reach about $521 a year

The five US weekly offers range from $4.99 to $9.99; separately listed yearly offers range from $29.99 to $49.99. Warda’s highest weekly rate annualizes to about $521, versus a $44.99 yearly listing. These are recurring-price comparisons, not observed charges or proof of equal plan benefits.

US and DE/IE in-app purchase lists, 4 November 2026.

WHAT IT COSTS

Weekly subscriptions for a product that can look like Google's.

Prices below are displayed in-app purchase offers, corroborated against US, DE and IE listings. They are not a tested paywall or an observed charge. Fareed also lists a one-time lifetime offer; its scope and longevity were not tested.

Up to about $521 a year at the weekly rate

US weekly prices range from $4.99 to $9.99. Annualized equivalents are about $260 to $521, while separately listed yearly plans cost $29.99 to $49.99.

Annualized comparison = weekly price × 365 ÷ 7 at unchanged rates; actual renewals depend on billing dates. Benefits were not assumed equal.

The scam risk: paying the wrong publisher

These apps borrow the recognition of a Google product at the point where users decide what to download. A familiar arch-shaped icon, Notebook or NotebookLM in the title, and promises of quizzes, flashcards and audio summaries can reinforce the impression that a listing belongs to Google. The seller is a different publisher, and the subscription purchases that publisher's service.

The concern is not simply that an independent developer charges money. It is that brand imitation can influence the buying decision before the customer understands who supplies the product. The mistaken-purchase review shows precisely that reported outcome: a buyer says the presentation led them to expect Google NotebookLM and paid on that basis. The developer's reply acknowledges the confusion rather than disputing that the names look similar.

App Scam DB flags these five listings as suspected scams because the repeated brand imitation creates a risk of deceptive sales. The strongest direct evidence of a mistaken purchase concerns Kajan's app; the other four must be assessed on their own branding, descriptions and disclosures. Their availability demonstrates that they passed Apple's distribution review, not that Apple established their affiliation with Google or guaranteed their claims.

Recurring billing makes an identity mistake consequential: the US weekly offers range from $4.99 to $9.99. A customer seeking Google's product can instead enter a recurring payment relationship with another seller. Store approval and a familiar-looking icon should not be treated as proof that the publisher is Google.

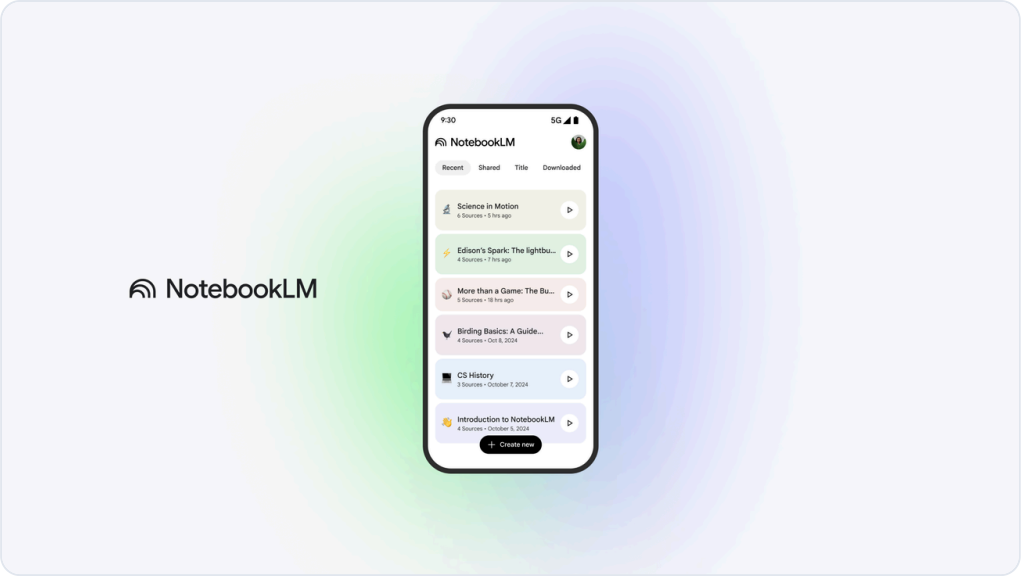

E7–E12; E29–E30. Native Apple listings, review and developer reply, official Google identity and applicable branding/review rules.

The same recognizable shape, five variations

This is a repeated Google-brand imitation pattern: concentric rounded arches, a hollow center, blue/lilac tones and Notebook-focused names. Warda adds a metallic-looking tile and depth; Fareed uses clean taller bands; Islam tilts and fans the strokes; David overlaps thinner arches; Kajan keeps a compact upright arrangement. None is the Google-published app.

Google's genuine app is currently titled Gemini Notebook. Google announced the rename from NotebookLM on 16 July 2026. Its 19 May 2025 launch illustration below preserves the earlier black arch logo, while the current Apple icon above preserves today's colored mark. These are dated official references, not earlier versions of the five investigated icons.

The combination of a recognizable icon and a brand-led title can make a separate paid product look like Google's own study tool. Similarity is assessed visually; no automatic percentage is presented as a copying or infringement verdict.

Google's original launch artwork, 19 May 2025. E13.

E12; E13; E14; E29.

Who publishes each app?

The table uses Apple's numeric publisher IDs, not name-based guesses. All five primary apps were available in the US, German and Irish product pages at the time of this investigation. A store availability check does not verify the app's performance or permissions.

The country is the business country declared to Apple. It does not establish nationality, residence, where the code was written or whether a claim is fraudulent. Non-trader declarations do not establish a country.

Verified primary app identities and EU business disclosures

Application / app ID	Apple seller / publisher ID	Declared country / trader	Bundle ID

The weekly plan versus the separate yearly offer

The annualized amounts below estimate continuous service at the listed weekly rate. They are not actual billed totals. Whether plans provide identical benefits was not tested. Paid subscriptions and high prices alone do not establish fraud; confusion about which service a person is buying is the central risk.

US annualized comparison at unchanged prices

Seller	Weekly rate	Estimated yearly cost	Separate yearly offer
Warda Saleem	$9.99	about $521	$44.99
Muhammad Fareed Ud Deen	$4.99	about $260	$39.99
Muhammad Islam	$4.99	about $260	$29.99
David Jay Cederbaum	$5.99	about $312	$49.99
Kajan Navaratnam	$6.99	about $364	$39.99

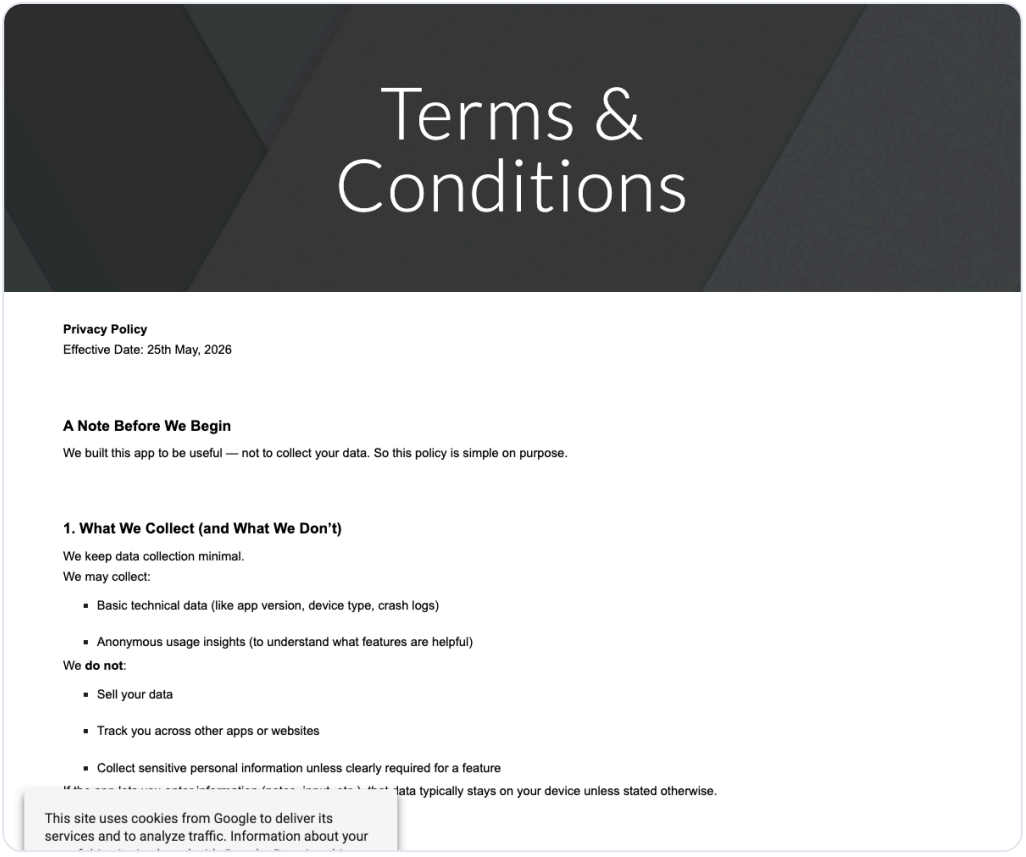

Annualized estimate = weekly price × 365 ÷ 7; actual billing dates and cancellation determine charges. E7, E8, E9, E10, E11.

Warda Saleem: NotebookLM in the code, privacy text as terms

AI Notebook: Quiz & Flashcards uses the bundle identifier com.ws.notebooklm. Its other exact-ID app, AI Chatbot · Ask AI Assistant (6771800046), uses com.ws.claude. These stable identifiers connect both products to account 6771797952; they do not establish a connection to any other seller.

The homepage is a minimal Google Sites page bearing the developer name. The listed terms URL displays a Terms & Conditions banner followed by the same Privacy Policy text, rather than explaining the subscription agreement. The privacy policy describes technical diagnostics, usage insights and sending selected input to external AI providers. It also says the product is not designed for children under nine, while the store's age rating is 4+. Those are different policy/rating statements that the publisher has not reconciled.

The US listing includes favorable study-tool reviews. Those do not resolve the icon or legal-page findings, but no claim is made that every user reports a bad experience. Germany and Ireland both show non-trader disclosures; no account-linked country was established.

The actual linked terms page serves privacy text. E16.

Developer homepage ↗ Linked terms page ↗

E7; E15; E16; E27.

Muhammad Fareed Ud Deen: NotebookLM outside, MemoAI inside

App for AI NotebookLM & Quiz puts Google's NotebookLM product name in its title and uses the subtitle Built on Google Gemini API. Inside the description it repeatedly calls the product MemoAI. The visible sales name therefore draws on Google's product while the body describes a separate app.

Google's Gemini API is a real developer service. The subtitle alone is not proof of a false technical claim, and no connection was tested. Even genuine API use does not make a product the official NotebookLM app or establish permission to adopt its mark. The branding concern is the combined title/icon presentation.

Four exact-ID apps share account 6781671107: Ember, CAuth, this Notebook app and AniCompass. All were checked against Apple records. The MF Apps Google Sites hub has working privacy, terms-of-use and EULA pages. Its broad policy covers multiple app types and third-party processing; it does not establish an independent Google partnership. Both EU storefronts show non-trader statements.

MF Apps support/legal hub ↗ Gemini API official documentation ↗

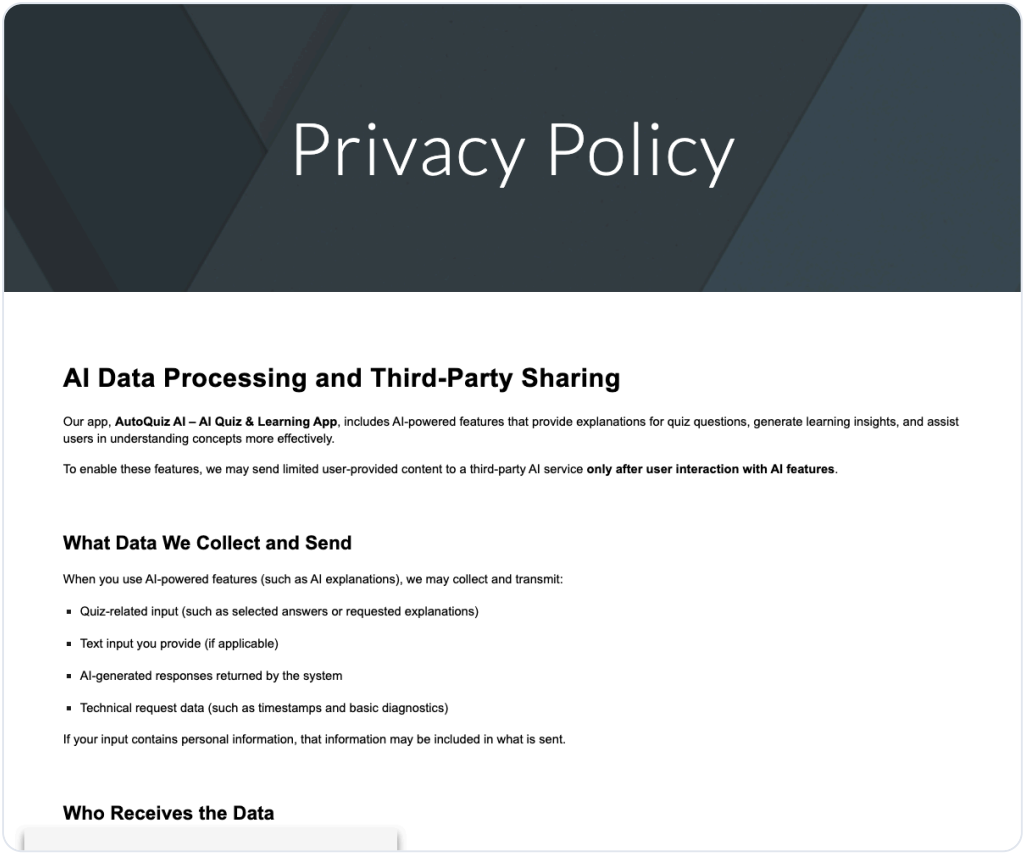

E8; E17; E18; E29; E27.

Muhammad Islam: Pakistan declaration and an unrelated policy name

Apple's German and Irish disclosures identify Muhammad Islam as a trader with a business location in Toba Tek Singh, Pakistan. This country attribution is directly tied to app 6763682985; it is not inferred from the name. Eight exact-ID products share publisher 1805174466.

Notebook: AI Quiz & Notes links to a policy headed AutoQuiz AI - AI Quiz & Learning App. That document discusses sending user quiz/text input and technical request information to OpenAI. The shared public support identifier links the legal pages back to this publisher, but the wrong product name leaves the scope unclear. His terms still use [Insert Your Country/State] in their governing-law clause.

The additional current review shown above alleges that the app poses as Google's Gemini Notebook. That allegation is supported by the visible icon resemblance, but its legal conclusion remains the reviewer's statement. No purchase, account access or hidden-data-flow test was performed.

Privacy Policy

AI Data Processing and Third-Party Sharing

Our app, **AutoQuiz AI – AI Quiz & Learning App**, includes AI-powered features that provide explanations for quiz questions, generate learning insights, and assist users in understanding concepts more effectively.

To enable these features, we may send limited user-provided content to a third-party AI service **only after user interaction with AI features**.

What Data We Collect and Send

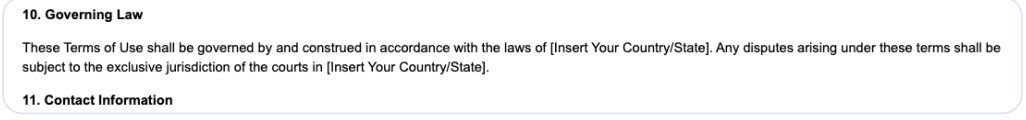

When you use AI-powered features (such as AI explanations), we may collect and transmit:

- Quiz-related input (such as selected answers or requested explanations)
- Text input you provide (if applicable)
- AI-generated responses returned by the system
- Technical request data (such as timestamps and basic diagnostics)

If your input contains personal information, that information may be included in what is sent.

Who Receives the Data

Wrong product name in the linked privacy policy. E19.

10. Governing Law

These Terms of Use shall be governed by and construed in accordance with the laws of [Insert Your Country/State]. Any disputes arising under these terms shall be subject to the exclusive jurisdiction of the courts in [Insert Your Country/State].

11. Contact Information

Unfilled governing-law placeholder in the actual linked terms. E20.

E9; E19; E20; E27.

David Jay Cederbaum: UK trader, local-only claims

Notebook Flashcards & Quiz LM is published by account 6804164097. Apple's DE/IE disclosure identifies a trader in Osidge, United Kingdom. Its description uses QuizLM as the product identity and claims on-device document reading and local storage.

The Google Sites hub supplies legal/support pages. Its policy and terms are written for an iOS app despite this primary product being Mac-only. The privacy document makes a consistent local-only promise: no content transmission, analytics or collection. Unlike the broader policies in this report, it supplies no affirmative basis to claim that this app sends documents to a cloud service. The actual implementation was not tested.

An additional search-indexed Apple listing, Smart Pritner App: PrintPAL (6804164095), identifies the same seller and business-contact details. Fresh product requests returned 404 and an exact-ID lookup returned no record. This is an earlier indexed association, not proof of a ban or a second account.

Legal/support hub ↗ Privacy policy ↗

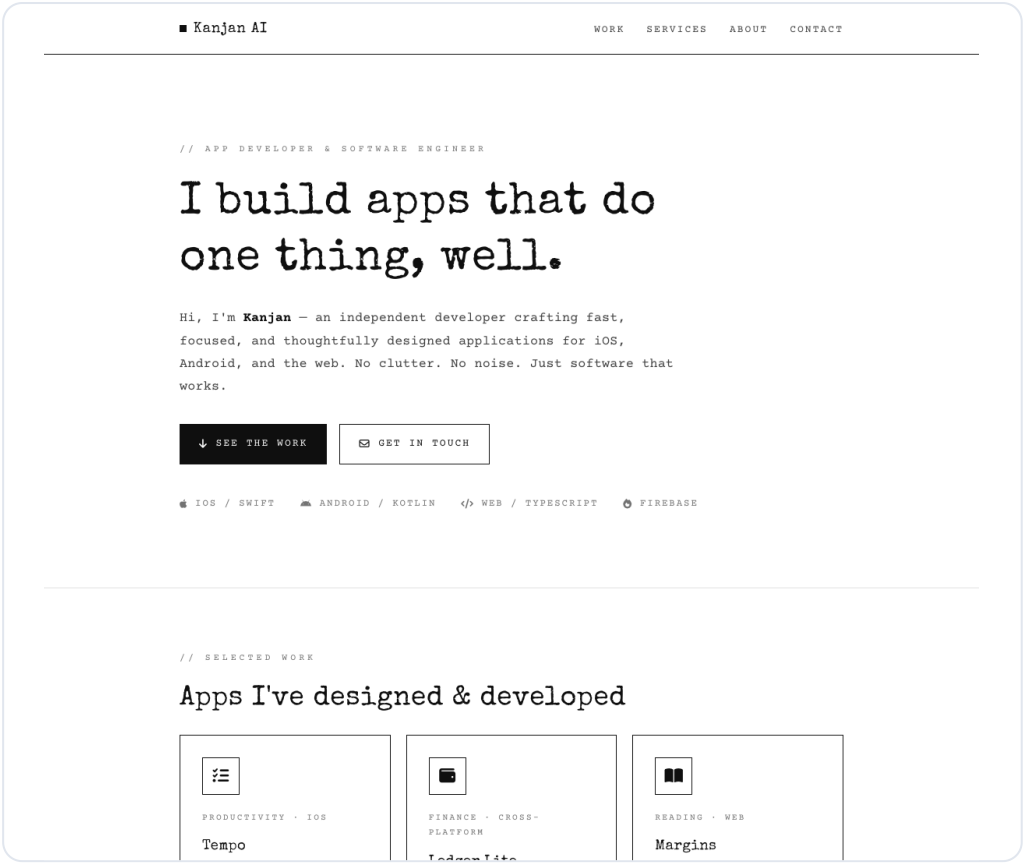

E10; E21; E22; E34.

Kajan Navaratnam: acknowledged confusion and a broken reply link

The most direct consumer evidence belongs to Notebook Quiz & Flashcards LM. A reviewer dated 21 August reports a mistaken purchase. The developer reply dated 31 August acknowledges the confusion, explains that this is a separate product and points to /contact on the linked website. That exact route now returns 404; the homepage still offers an email contact.

Apple's DE/IE trader declaration gives Bristol, United Kingdom. The linked Firebase site calls itself Kanjan AI, while Apple identifies Kajan Navaratnam. Its six advertised projects - Tempo, Ledger Lite, Margins, Plainweather, Breathe Ten and Shipit - have demo requests rather than verifiable store identifiers. The site's claims of 30+ shipped apps, eight years and a 4.8 average rating were not independently corroborated. One live Mac product was established for this Apple account; this does not rule out work elsewhere.

The listing makes the absolute claim No hallucinated facts, then warns that Notebook can make mistakes. It explicitly describes cloud-generated answers. Its multi-service policy also describes diagnostics and hosting logs, but does not clearly separate website activity from this app's collection.

Linked developer homepage; its project names do not establish another Apple account. E23.

Kanjan AI homepage ↗ Reply's contact route · returned 404 ↗

What links the accounts - and what does not

The repeated icons, study features, Notebook/LM naming and hosted legal pages show a common marketing pattern. They do not, by themselves, prove a common business or the same developer behind different names. No exact contact identifier or publisher-controlled infrastructure identifier was found connecting the five sellers to one another.

The supplied Join for Team Meetings file belongs to a sixth distinct account, Muhammad Abdullah Zahid. Its maz-apps legal hub, support identifier, publisher ID and six-product portfolio do not match these five. It remains a separate investigation, linked below and included as supplied contextual material in the dossier.

Exact-name and support-identifier searches did not establish a corroborated company registration, professional identity or independently documented fraud case beyond the evidence described here. Same-name results were excluded. No claim of account suspension, identity fraud or deliberate review evasion is made for these five accounts.

Connection strength

Observed relationship	Result
Apps within each of the five portfolios	Confirmed by identical numeric Apple publisher IDs
Primary app and its linked legal hub	Confirmed by listing URLs and public support identifiers
Nested-arch icons and Notebook/LM marketing	Documented recurring presentation pattern
One operator behind the five accounts	Not established by an exact identifier match
Connection to Join / MAZ account	No shared account-linked identifier found

Read the separate Join investigation ↗

E27; E32; E33.

Read the privacy promises app by app

All five Apple pages display Data Not Collected. That label does not mean that no network request can occur: Apple excludes some real-time processing when data is discarded after servicing the request. A cloud AI feature therefore does not automatically prove a false label.

The concrete concern is whether the linked policy accurately describes this specific product, and whether diagnostics or other retained information require disclosure. Warda and Kanjan describe broader technical collection; MF Apps describes several possible services; Islam names a different app; David consistently claims local-only behavior. No app was installed and no network traffic was inspected.

Policy scope versus listing promise

Seller	Linked policy account	Documented problem or boundary
Warda Saleem	Technical/usage data and AI providers	Broad collection wording; terms page duplicates policy
Muhammad Fareed Ud Deen	Multi-app cloud/analytics processing	Generic scope; temporary processing alone is not label falsity
Muhammad Islam	AutoQuiz AI and OpenAI requests	Wrong product name; Notebook scope unclear
David Jay Cederbaum	No data transmission or collection	iOS template for Mac; local-only claims not disproved
Kajan Navaratnam	Multi-service device/usage/hosting logs	App-versus-website scope unclear; listing promises cloud AI

E31; E15, E17, E19, E21, E24.

History: do not invent a harmless launch

The supplied dossiers are one-off captures taken on 4 November 2026. Apple's first-release dates range from May to August; a release date alone does not show the original name, icon or App Review submission.

Two usable archived Kajan pages from 22 August and 21 September retain the current title, seller and the same icon asset identifier. They do not document a generic-to-branded transformation. The other supplied current replays loaded, while wider history searches met a mixture of empty indexes, outages and timeouts. No dated rebranding sequence was established for these five apps.

Verified dates and archive context

App	Apple first release	History established
AI Notebook: Quiz & Flashcards	2026-08-31	4 Nov current capture; earlier artwork sequence not established
App for AI NotebookLM & Quiz	2026-07-21	4 Nov current capture; earlier artwork sequence not established
Notebook: AI Quiz & Notes	2026-05-03	4 Nov current capture; earlier artwork sequence not established
Notebook Flashcards & Quiz LM	2026-08-31	4 Nov current capture; earlier artwork sequence not established
Notebook Quiz & Flashcards LM	2026-07-21	22 Aug / 21 Sep: same title, seller and icon asset ID

E28; E7, E8, E9, E10, E11.

Why the presentation warrants an App Store review

Google's brand guidance prohibits imitating its distinctive visual identity and adopting brand elements in ways that imply an affiliation that does not exist. Informational references to a service are different from making a separate product look like that service. The icon family, NotebookLM title and documented mistaken purchase make the affiliation question concrete.

Apple's rules on accurate presentation, copycats, intellectual property and privacy disclosures are relevant to these observations. This report identifies apparent branding and disclosure problems; it does not claim a court finding, Google permission decision or Apple enforcement action.

Open source ↗

E15 / Warda Saleem privacy policy

Retrieved 2026-11-04T12:25:17.572511+00:00; HTTP 200. Warda policy: technical/usage diagnostics and third-party AI processing; listed app age 4+, policy says not designed for under 9.
Open source ↗

E16 / Warda Saleem linked terms page

Retrieved 2026-11-04T12:27:03.791049+00:00; HTTP 200. Warda Terms & Conditions URL serves the same Privacy Policy content, not substantive subscription terms.
Open source ↗

E17 / MF Apps privacy policy

Retrieved 2026-11-04T12:25:17.634091+00:00; HTTP 200. MF Apps policy: broad multi-app scope, optional cloud content processing, analytics and diagnostics; content retained only as needed.
Open source ↗

E18 / MF Apps terms of use

Retrieved 2026-11-04T12:27:03.185148+00:00; HTTP 200. Working MF Apps Terms of Use; correct URL is terms-of-use. A guessed terms-and-conditions URL returned 404 and is not treated as the listed link.
Open source ↗

E19 / Notebook-linked AutoQuiz AI privacy policy

Retrieved 2026-11-04T12:25:17.722812+00:00; HTTP 200. Linked Notebook policy names AutoQuiz AI, discusses OpenAI requests and user-content sharing.
Open source ↗

E20 / Muhammad Islam terms of use

Retrieved 2026-11-04T12:25:17.758132+00:00; HTTP 200. Terms still contain the country/state insertion placeholder; exact support identity matches the Notebook listing.
Open source ↗

E21 / David Cederbaum privacy policy

Retrieved 2026-11-04T12:25:18.021902+00:00; HTTP 200. David policy: labels itself iOS and states local-only content, no transmission, no analytics. This is not evidence of cloud collection.
Open source ↗

E22 / David Cederbaum terms of use

Retrieved 2026-11-04T12:25:18.060458+00:00; HTTP 200. David terms: iOS wording; identifies David Cederbaum as provider.
Open source ↗

E23 / Kanjan AI developer homepage

Retrieved 2026-11-04T12:25:18.802038+00:00; HTTP 200. Kanjan homepage advertises six other named projects, demo links and 30+ shipped apps, but supplies no verifiable store IDs for those projects.
Open source ↗

E24 / Kanjan AI privacy policy

Retrieved 2026-11-04T12:25:17.999442+00:00; HTTP 200. Kanjan multi-service policy describes contact/content information, device/usage diagnostics and hosting logs; website versus app scope is not fully separated.
Open source ↗

E25 / Kanjan AI terms

Retrieved 2026-11-04T12:25:18.041507+00:00; HTTP 200. Kanjan terms refer to app subscriptions and hosted services; no second seller identified.
Open source ↗

E26 / Kanjan support URL from developer reply

Retrieved 2026-11-04T12:27:03.763498+00:00; HTTP 404. The support URL linked in the public developer reply returns HTTP 404; the homepage still provides an email route.
Open source ↗

E27 / Apple portfolios and exact-ID corroboration

Five Apple developer pages inspected; 16 exact-ID software records establish the app-to-account mappings below. Artist catalog lookups with entity=macSoftware returned no software results, so they were not used as evidence of an empty portfolio. Related listings are leads, not automatically additional fraud findings.
Open source ↗

E28 / Wayback history across the five app IDs

Supplied 4 November replays all returned HTTP 200. Broad and exact URL CDX attempts were also made. The usable Kajan index exposes 22 August and 21 September 2026 records, which were retrieved and decoded; they retain the same title, artist ID and icon asset identifier as the current page. Other index calls returned empty results, HTTP 503 or timeouts. These outcomes do not prove that no earlier history exists.
Open source ↗

E29 / Google brand guidance

Retrieved 2026-11-04T12:28:37.612590+00:00; HTTP 200. Google bars imitating its visual identity or using its brand elements to imply a relationship that does not exist. Informational text references are permitted subject to its rules; an API connection does not establish affiliation.
Open source ↗

E30 / Apple App Review Guidelines

Retrieved 2026-11-04T12:25:18.063188+00:00; HTTP 200. Relevant: 2.3 accurate metadata, 2.3.7 app naming, 4.1 copycats, 5.2.1 intellectual property and 5.1.1 privacy. No Apple enforcement decision or rights-holder permission finding obtained.
Open source ↗

E31 / Apple’s definition of data collection

Retrieved 2026-11-04T12:29:40.706143+00:00; HTTP 200. Off-device processing immediately discarded after servicing a request need not be disclosed as collection. The policy audit distinguishes transmission, retention and broader diagnostics; no app traffic was tested.
Open source ↗

E32 / Identifier-based cross-account investigation

Exact support addresses, seller names, Apple artist/app/bundle IDs, Google Sites slugs and Kanjan Firebase project identifier searched online and compared with existing local reports. No shared exact support address, publisher ID or account-linked infrastructure identifier established between these five accounts or Join. Name-only professional/registry results excluded. Shared hosting or icon resemblance alone does not establish ownership.
Open source ↗

E33 / Join for Team Meetings · already investigated separately

The sixth supplied file concerns app 6758665793, Muhammad Abdullah Zahid / artist 1863971071. Its verified six-product account and maz-apps support hub differ from these five accounts. Included in the PDF as supplied contextual evidence; it is not a sixth NotebookLM icon case.
Open source ↗

E34 / Additional indexed Apple listing · PrintPAL

Search-indexed Apple text for app 6804164095 names David Jay Cederbaum and the same business contact details. Fresh US, IE and SE product URLs returned 404 and the exact-ID SE lookup returned zero results. Treat as an earlier indexed account association, not a currently available sixth portfolio app or a proven Apple ban.

Description

Turn the documents already on your Mac into something you can question, study from, and actually remember.

Drop a PDF, Word file, slide deck or text file into a notebook and AI Notebook reads all of it. Then ask questions in plain English and get answers grounded in your own material - and turn that material into summaries, study guides, flashcards, quizzes and spoken recaps with one click.

BUILD A NOTEBOOK IN SECONDS
• Drag files straight from Finder, or add them with the file picker
• Put as many sources in one notebook as the topic needs
• Supports PDF, DOC, DOCX, PPT, PPTX, XLS, XLSX, TXT, RTF and images
• Password-protected PDFs are unlocked on import, so locked course packs still work
• Damaged files are caught before they ever reach your notebook

ASK YOUR SOURCES ANYTHING
• Chat with a notebook and get answers drawn from the files you added

• Answers stream in as they are written, so you are never left waiting on a spinner
• Ask follow-ups, regenerate an answer, or stop one mid-sentence
• Copy any answer, or have your Mac read it aloud
• Every conversation is saved with its notebook and can be shared

SIX STUDY TOOLS, ONE CLICK EACH
• Summary - a short overview plus an at-a-glance bullet list
• Study Guide - key points broken into numbered revision sections
• FAQ - the questions your material actually answers, with answers
• Flashcards - question-and-answer cards you flip through at your own pace
• Quiz - a five-question multiple-choice test that scores you as you go
• Audio Overview - a spoken recap you can play, pause, skip through and replay

SMART ARCHIVE
Every summary, study guide, FAQ, flashcard set, quiz and audio recap is saved inside the notebook that produced it. Reopen any of them later instead of generating it all over again.

A SEPARATE AI CHAT
Alongside your notebooks there is a general assistant for everything else - explaining a tricky concept, drafting a message, writing and explaining code, brainstorming ideas. Attach documents or images to a message, keep as many conversations as you like, and browse them by day.

SEE YOUR PROGRESS
• A weekly study activity chart on the home screen
• Running totals for notebooks, sources and audio overviews
• Mark the notebooks you keep coming back to as favorites
• Filter by recent or favorite, and search your library by title

BUILT FOR MAC
A native macOS app: sidebar navigation, Finder drag and drop, the system share sheet and built-in speech. Imported files are copied into your own library on your Mac, and deleting a notebook removes its uploaded copies too.

WHO IT IS FOR
Students working through lecture slides and readings, researchers going through papers, and anyone who has to get through long documents and remember what was in them.

PREMIUM
AI Notebook includes one free AI generation so you can try it before deciding. Premium removes the limit: unlimited notebooks, unlimited AI chat, and unlimited study tools - summaries, study guides, FAQs, flashcards, quizzes and audio overviews. Available weekly, monthly or yearly.

An internet connection is required, because answers are generated in the cloud.

Payment is charged to your Apple Account at confirmation of purchase. Your subscription renews automatically unless auto-renew is turned off at least 24 hours before the end of the current period. Manage or cancel your subscription in your Apple Account settings.

Privacy Policy
Effective Date: 25th May, 2026

A Note Before We Begin

We built this app to be useful — not to collect your data. So this policy is simple on purpose.

1. What We Collect (and What We Don't)

We keep data collection minimal.
We may collect:

- Basic technical data (like app version, device type, crash logs)
- Anonymous usage insights (to understand what features are helpful)

We **do not**:

- Sell your data
- Track you across other apps or websites
- Collect sensitive personal information unless clearly required for a feature

If the app lets you enter information (notes, input, etc.), that data typically stays on your device unless stated otherwise.

2. Why We Collect Anything at All

When we do collect data, it's for practical reasons:

- To fix bugs and crashes
- To improve performance
- To understand which features people actually use

That's it — no hidden agendas.

3. AI Models & Third-Party Services

Our app provides access to advanced AI models hosted by third-party providers.
Depending on the feature or model you use, your input (such as text, files, or audio) may be securely sent to providers including:

- OpenAI
- Anthropic (Claude)
- Google (Gemini)
- xAI (Grok)

This data is processed only to generate responses and is handled according to each provider's privacy policies. We send only the information necessary to complete your request.

4. Other Service Providers

We use trusted third-party services for essential operations, such as:

- Authentication (Apple, Google)
- Hosting and storage (e.g., AWS, Firebase)

- Hosting and storage (e.g., AWS, Firebase)
- Payments and subscriptions (Apple, Revenue Cat, Stripe)
- Analytics and diagnostics

These providers only receive data necessary to perform their services and are required to protect it appropriately.

5. Your Data, Your Control

You're always in control:

- You can stop using the app anytime
- You can restrict permissions in your device settings
- You can choose what information you share (if any)

6. Data Storage & Security

We don't hold onto data longer than necessary.
When we no longer need it, we delete or anonymize it.
We use reasonable safeguards — but like any digital service, nothing is 100% risk-free.

7. Children's Privacy

This app is not designed for children under 9, and we do not knowingly collect their data.

8. Updates to This Policy

If we ever change how we handle data, we'll update this page.
If the changes are significant, we'll make that clear.

9. Contact

Questions? Concerns? Just curious?
Reach out at: wardasaleem242@gmail.com

Short version:
We collect as little as possible, use it responsibly, and never sell your data.

App for AI NotebookLM & Quiz

Built on Google Gemini API

Description

MemoAI: AI Notebook and Quiz

Your Mac-native AI study workspace.

MemoAI turns the material you already have—PDFs, notes, YouTube links, web pages, audio, Word, Excel, and PowerPoint—into quizzes, flashcards, summaries, mind maps, and more. Stop switching between tabs and study apps. Build one notebook, then generate the tools you need to learn.
Import a source from Home, open it in History, and generate summaries, quizzes, flashcards, AI chat, notes, mind maps, infographics, reports, and audio overviews—all from the same notebook on your Mac. If you copy articles into Docs, skim PDFs in Preview, and still invent quiz questions by hand, MemoAI keeps the whole study loop in one place.

Why MemoAI?
Most students and lifelong learners bounce between cloud docs, browser tabs, and flashcard sites just to remember what they read. MemoAI is a focused Mac app built for learning from your sources—not another blank notes window.

Core Capabilities
• Multi-Source Import: Create notebooks from recorded or uploaded audio, pasted text, YouTube links, web links, PDFs, images, Markdown, Excel, Word, and PowerPoint..
• AI Summaries: Get clear study notes extracted from your sources..
• Custom Quizzes: Generate multiple-choice quizzes with adjustable question count and difficulty (Easy, Medium, Hard)..
• Flashcards: Build review decks for key ideas, with customizable card count and difficulty..
• AI Chat: Ask follow-up questions grounded in your notebook content..
• Mind Maps & Infographics: See topics as an interactive mind map or a visual overview..
• Reports: Generate briefing docs, study guides, or blog-style writeups from your sources..
• Audio Overview: Listen to a short conversational recap of your material..
• Notes & History: Write your own notes, organize notebooks in folders, and continue from History..
• Pro Upgrade: Unlock unlimited notebooks and unlimited AI generations across study tools.

Built for Everyday Learners

MemoAI is not a bloated classroom suite. It is a practical Mac workspace for the moments that matter—when you want a quiz from a PDF, flashcards from a lecture recording, or a mind map before an exam.
Import once. Generate what you need. Study without the tab chaos.

Download MemoAI and keep your study routine on your Mac.

MemoAI uses AI to process relevant text from your sources when you generate study content. Notes, folders, and imported files are stored locally on your Mac. AI-generated content may be inaccurate—verify important facts before relying on them. Do not upload sensitive or confidential material you are not allowed to share with third-party AI services.

MemoAI offers optional auto-renewable subscriptions (Weekly, Monthly, and Yearly) and a Lifetime purchase option. A free trial may be available with the Monthly plan for eligible users. Payment is

charged to your Apple ID account at confirmation of purchase. Subscriptions automatically renew unless canceled at least 24 hours before the end of the current period. Your account will be charged for renewal within 24 hours prior to the end of the current period. You can manage or cancel subscriptions in your App Store account settings. Lifetime unlocks Pro access with a one-time purchase and does not auto-renew.

MF Apps ("we", "us", or "our") values your privacy and is committed to protecting it. This Privacy Policy ("Policy") explains how we collect, use, process, store, and protect information when you use any mobile application published under the MF Apps account (collectively, the "Apps" or "Services"). By downloading, accessing, or using our Apps, you agree to the terms of this Policy. If you do not agree, please do not use our Apps.

Scope of This Policy

This Policy applies to all mobile applications, tools, utilities, and services published by MF Apps, including but not limited to productivity apps, image or file converters, PDF tools, editors, and AI-powered features. This Policy does not apply to third-party websites, services, or applications that we do not own or control.

Definitions

"User", "You", "Your" refers to any individual or entity using our Apps. "Company", "We", "Our", "Us" refers to MF Apps. "Personal Information" means information that identifies or can reasonably be linked to an individual. If you use the Apps on behalf of an organization, you confirm that you have the authority to bind that organization to this Policy.

Information We Collect

We are committed to collecting only the minimum amount of data necessary to operate and improve our Apps. This may include basic technical information (such as device type, operating system, or app version); anonymous usage data for performance, analytics, and crash reporting; and content you intentionally provide or upload to use app features (such as images, documents, files, or text). We do not collect personal information unless it is required to provide a specific feature or service.

Content You Provide

Some Apps offer features that involve content you choose to provide, such as photos, images, documents, or files. Only the content you choose to provide and the information needed to perform the requested action are collected. You select or upload the content from your device, and we do not store this content on our servers beyond what is needed to complete your request. Where a feature relies on third-party processing services, your content may be sent securely (over HTTPS) only to complete your request, and those providers process the content under their own terms and privacy policies. We do not retain your content after the requested operation is complete, and you can avoid using a feature if you do not want your content sent for processing.

Children's Privacy

Our Apps are intended for users who meet the minimum age rating displayed in the relevant App Store for their region. We do not knowingly collect Personal Information from children under the age of 13. If you believe that a child has provided Personal Information through our Apps, please contact us and we will take appropriate steps to delete such information.

How We Use Information

Information collected may be used to provide and operate app features; process user-requested actions (such as file conversion or editing); improve performance, stability, and user experience; prevent misuse, fraud, or abuse; and comply with legal obligations. We do not use your information for advertising or marketing purposes unless explicitly stated within a specific App.

Processing of User Content

Some Apps may process files or content that you intentionally upload (such as images, PDFs, or other documents) in order to provide functionality. Content is processed only for the requested purpose; files are not accessed beyond what is required to perform the operation; we do not review or use user content for profiling or marketing; and processing may occur locally on your device or through secure servers where applicable

secure servers where applicable.

Third-Party Services

To operate certain features, we may rely on trusted third-party service providers for cloud processing, analytics, crash reporting, and AI or automated processing where applicable. These providers are permitted to process information only as necessary to perform their services. We choose providers that protect user data in line with applicable privacy standards and their published policies. We do not sell or rent your Personal Information to third parties.

Data Retention

We retain Personal Information only for as long as necessary to fulfill the purposes outlined in this Policy, comply with legal obligations, and resolve disputes and enforce agreements. User content may be deleted immediately after processing, and we do not store your uploaded content longer than needed to complete your request. Aggregated or anonymized data may be retained for analytical purposes and cannot be used to identify you.

Links to External Resources

Our Apps may include links to third-party websites or services. We are not responsible for the privacy practices or content of those third parties. We encourage users to review the privacy policies of any external services they access.

Information Security

We implement reasonable technical, administrative, and organizational safeguards to protect information from unauthorized access, disclosure, alteration, or destruction. However, no system is completely secure, and we cannot guarantee absolute security of data transmitted or stored electronically.

Data Breach

In the event of a data breach that may pose a risk to users, we will take reasonable steps to investigate and mitigate the incident, notify affected users where required by law, and cooperate with regulatory or legal authorities. Notifications may be provided through the App or other appropriate channels.

Changes to This Policy

We may update this Privacy Policy from time to time. When changes are made, we will update the "Last Updated" date at the top of this Policy. Continued use of our Apps after changes take effect constitutes acceptance of the revised Policy.

Acceptance of This Policy

By using any App published by MF Apps, you confirm that you have read, understood, and agreed to this Privacy Policy. If you do not agree, you must discontinue use of our Apps.

Contact Us

If you have any questions, concerns, or requests regarding this Privacy Policy or your data, you may contact us at hellomuhammadfareed@gmail.com.

Latest update

Version	2.0
Released	2026-10-30

What's New

Join for Team Meetings is now a complete meeting companion for macOS.

- Support for multiple meeting platforms
- Create, schedule, join, and start meetings directly from the app
- New calendar view to see your entire week at a glance
- Smart reminders to help you never miss a meeting
- Apple Reminders syncing
- Custom backgrounds for a better meeting experience
- Improved dashboard and overall app experience
- Bug Fixes & UI Improvements

Thank you for using Join for Team Meetings. I'd love to hear your feedback and ideas for future updates at maz.contactus@gmail.com

Description

Join, schedule, create, and start meetings across multiple platforms, all from one convenient app. Whether you use Zoom, Teams, or Meet, manage your meetings from a single place without switching between different apps.

Stay organized with a calendar view that gives you a clear overview of your upcoming meetings for the entire week. Smart reminders help you stay on top of your schedule, while Apple Reminders syncing makes it easy to keep your meeting tasks organized across your devices.

Make a better impression in every meeting with custom backgrounds. Choose the right background to create a professional, polished, or personalized look whenever you join a call.

Key Features:

- Join, schedule, create, and start meetings from the app
- Support for multiple meeting platforms
- Calendar view to see your entire week at a glance
- Smart reminders for upcoming meetings

• Sync meetings with Apple Reminders
• Custom backgrounds for a better meeting experience
• Manage your meetings from one convenient dashboard

An additional in-app purchase is required to unlock the full content.

This is a standalone app and is not endorsed by, affiliated with, or associated with Zoom Video Communications, Inc., Microsoft Corporation, or Google LLC.

Version history

2.0 · 2026-10-30
Join for Team Meetings is now a complete meeting companion for macOS.

- Support for multiple meeting platforms
- Create, schedule, join, and start meetings directly from the app
- New calendar view to see your entire week at a glance
- Smart reminders to help you never miss a meeting
- Apple Reminders syncing
- Custom backgrounds for a better meeting experience
- Improved dashboard and overall app experience
- Bug Fixes & UI Improvements

Thank you for using Join for Team Meetings. I'd love to hear your feedback and ideas for future updates at maz.contactus@gmail.com

Appendix — the privacy policy linked from the listing as displayed

Full-page browser capture of https://sites.google.com/view/maz-apps/privacy, taken 2026-11-04 10:19:05 UTC. Cookie-consent overlays (the host's, not the page's content) were hidden before the capture, and Google pages were opened in English. Only the first 3 pages are shown; the whole capture is in the evidence archive.

This Privacy Policy has been compiled to serve users who are concerned about how their 'Personally Identifiable Information (PII)' can be used online. As per US privacy law and information security, PII is information that may be used on its own or with other information to identify, locate, or contact an individual. We recommend you to read the policy carefully to get a clear understanding of how we collect, use, or handle your PII according to our website.

What Information does APP collect about me?

Whenever a client interacts with our Software, App, Site, and/or Services, we may collect a single Information or in combination with other data, could be used to identify you ("Personal Data"). There will also be some Information that we collect that is kept in a way that cannot be linked back to you ("Non-Personal Data").

Data you provide us whenever you create an account

When you register to use APP services, you willingly share with us certain Personal Data, including the following:

Your email address, username, contact, and language preferences. When logging into APP with a social networking credential, such as with your Google+ or Facebook account, we will ask for your consent to access basic information from that account, such as your email address and name. If you want to stop sharing that information with us, you may do so at any time by removing APP's access to that account.

If you are a paying client, you should provide your payment information. This is needed to fully deliver any marketable transaction on the APP site. We use the data to process and fulfill your transaction. If you select PayPal® to pay for your order, you will have to provide your credit card number directly to PayPal®. The privacy policy of PayPal® will apply to the information you provide on the PayPal® website.

What other Information we collect from you?

APP collect this Information as you use the Site, Software, App, and/or Services:

User Content: This includes all text, documents, or other content or information uploaded, entered, or otherwise transferred by you as part of your use of our Services and/or Software.

What information is automatically collected?

There is certain information about the devices you use to connect with APP and your use of the Site, Software, App, and/or Services are automatically registered in our systems, including the following:

Your location: This is the geographic area or place where you use your devices such as your computer, cellphone or tablet (as specified by an Internet Protocol [IP] address or similar identifier) when interacting with our Site, Software, App, and/or Services.

Your log data or information: Same like other websites, our servers automatically gather data when you access or use our Site, Software, App, and/or Services and store it in log files. This log data may include your IP address, browser type and settings, browser configuration, the date and time of use, cookie data, and language preferences.

Your usage information: This is information about the APP Site, Software, App, and/or Services you use and how you use them. We may also attain data from our third-party affiliates and service providers to examine how consumers use our Site, Software, App, and/or Services. For example, we will have an idea on the number of users who are accessing a specific page on the Site and at which links they normally clicked on. We will use this collected data to better understand and to help in optimizing the Site.

Your device information: These are data gathered from your computer or mobile device which include the type of hardware and software you are using (such as your operating system and browser type), and also unique device identifiers for devices that are using the APP Software.

Cookies: Data gathered from cookies are explained in the "Does APP use cookies?" section and in our Cookie Policy.

When does APP collect information?

We collect information from you when you fill out a form, subscribe to a newsletter, place an order, use live chat, open a support ticket, and/or enter any information on our site.

How does APP use my Information?

We at APP process, use, and record your Information as necessary to be able to carry out our contract with you and for our legitimate business interests, including the following:

- to communicate and build a connection with you about your use of our Site, Software, and/or Services, our product and service announcements, software updates if any, and to be able to give feedback to your requests for assistance which includes providing you with account verification support in the event that you are having problems with accessing your account or to follow up with you after correspondence.
- to help us manage our Site, Software, App, and/or Services, validate users for security purposes, offer tailored user features and access, process and deliver transactions, conduct reviews and study, develop upcoming features, and improve the algorithms and performance of our Site, Software, App, and/or Services.
- to send you direct email notifications and special offers about APP services, from which you can unsubscribe at any time you desire. For more details about this, kindly go this section - "Will APP send me emails?" If you are someone that resides in the European Economic Area (EEA), we will only send you promotional materials if you permit us to do so from the time you create your account or any point thereafter.
- to determine cumulative statistics on the quantity of unique devices using our Site, Software, App, and/or Services, and to identify and prevent misuse and fraud.
- To process your transactions quickly

- To process your transactions quickly
- to show User Content related with your account and to ensure that it is accessible to you when you use our Services.

Right to use Data and Disclosure

Does APP ever share my Information?

APP only disclose Personal Data to third parties when:

We work with service providers who help us in fulfilling business operation's requirements, these include hosting, improving, and carrying our Services. We also use service providers for specific services and functions such as customer support services, email communication, and analytics. These service providers may only access, process, or record Personal Data in accordance to our instructions and to accomplish their duties to us.

- We have your permission to share your Personal Data.
- We believe it is important to investigate possible violations of the Terms of Service, to implement those Terms of Service, or where we believe it is necessary to probe or take action regarding unlawful activities, suspected fraud, or potential threats against property, persons, or the methods on which we operate our Site, Software, App, and/or Services.
- We ascertain that the preservation, access, or disclosure of your Personal Data is mandatory by law to safeguard the rights, property, or personal safety of APP and the users of our Site, Software, App, and/or Services, or to respond to lawful requests by any public authorities.
- We need to do so in relation with an acquisition, merger, reorganization, bankruptcy, public offering of securities, selling of some or all of our assets. In such cases some or all of your Personal Data may be transferred or shared with another entity, subject to this Privacy Policy.
- We may impart or disclose Non-Personal Data to third parties and publicly - for example, to affiliates under agreement with us, or as part of progress reports which we may provide to users.

Does APP get profit for my Personal Data by selling them?

No, APP does not sell or rent your Personal Data.

Does APP use cookies?

Cookies are used by web browsers to provide personalized content and remember login credential and account settings. APP uses cookies and similar technologies, including web beacons and tracking pixels. These are needed to collect usage and analytic data that helps us provide our Site, Software, App, and/or Services to you and also to aid in delivering ads for relevant APP products and services to you when you browse certain pages on the Site and then go to third-party sites. APP does not share your Personal Data with third parties for the purpose of allowing them to deliver their advertisements to you. For more information on cookies and how APP uses them, please see our Cookie Policy.

We use cookies to:

- Help remember and process the items in the shopping cart.
- Understand and save preferences of users for future visits.
- Track & analyze our user's activity, so we can offer a better experience.

You can choose to turn off all cookies, or you can choose to have your computer warn you whenever a cookie is being sent. This can be done through your browser settings. Since every browser is different, go to your browser's Help Menu to learn how you can correctly modify cookies. If you choose to turn cookies off, some of the features may not function properly.

Third-party Disclosure

We do not sell, trade, or otherwise transfer to outside parties your Personally Identifiable Information.

Third-party Links

- We use third-party links in our Blog Posts to help improve the content for our readers.
- We use third-party links in our Privacy Policy page in order to guide our visitors how we handle PII and cookies.

Please be aware that we cannot guarantee the authenticity of any external links that you may visit. It is recommended that you always do your own research before visiting any third-party link.

Google

We use Google Adsense Advertising on our Software, App, Site, and/or Services. Google's Advertising Principles can sum up Google's advertising requirements. They are introduced to provide a better experience for users.

For further information visit: https://support.google.com/adwordspolicy/answer/1316548?hl=en

As a third-party vendor, Google makes use of cookies to serve ads on our Software, App, Site, and/or Services. Google's use of the DART cookie enables it to serve ads to our users on the basis of their previous visits to our Software, App, Site, and/or Services and other sites. If you want to opt-out of the use of the DART cookie, you can do so by visiting the privacy policy of Google Ad and Content Network.

Analytics & Marketing

We, along with third-party vendors such as Google make use of first-party cookies (such as Google Analytics cookies) and third-party cookies (such as DoubleClick cookies) or various other third-party identifiers together in order to compile data about user interactions with ad impressions and other ad service functions as they relate to our Software, App, Site, and/or Services.

Opt-out

Using the Google Ad Settings page, you can set preferences for how Google advertises to you. Alternatively, you can opt out through the Network Advertising Initiative Opt Out page or through the Google Analytics Opt Out Browser add on.

For further information visit: www.allaboutcookies.org

How to delete, modify or disable cookies

You can delete cookies or disable their use by following your browser instructions:

- Firefox
- Microsoft Edge
- Internet Explorer 11
- Google Chrome
- Safari (iOS)
- Android (Chrome)
- the latest Safari for Mac
- Safari 8 (Yosemite)
- Safari 6/7 (Mavericks)
- Safari 5.1 (OS X Lion)

If you use a different browser, then follow the instructions from its provider.

How do plugins and third-party apps work?

Some third-party applications and services that partners with us may ask for consent to access your Information. Such applications will provide you with notice and request your permission in order to obtain access or information. It would be best to consider your selection of such applications and services, and your permissions, carefully.

Some third parties' plugins or embedded content our Site , App, and/or Software, such as Facebook "Like" buttons, may allow their administrators to know that you have visited the Site, and they may use this information with other data they have gathered about your visits to other websites or services on the internet that can identify you.

The data collected by third parties through these plugins and applications is subject to each parties' own policies. We strongly encourage you to read those policies carefully and understand how other entities use your data.

Will APP send me email notifications?

There will be times when we may send you information about special offers, software updates, and other product announcements. We also may want to send you with information about products and services from our business affiliates. But, you may disable such communications at any time by clicking the "unsubscribe" button that can be found within APP emails and also by changing your contact preferences. All APP account holders will still receive email notifications that are related to our Services, even if you opt to unsubscribe from these emails.

For users coming from EEA:

We will only deliver promotional communications to users located in the EEA with your prior consent. Kindly see the section "For EEA users" below for more details.

Will APP ever make any of my Personal Data or User Content public?

No, we do not share Personal Data or User Content with the exception of the limited circumstances as stated in the "Does APP share my Information?" section of the Policy.

How does APP handle Do Not Track signals?

We honor Do Not Track signals and do not track, use advertising, or plant cookies when DNT browser mechanism is in place.

APP also does not allow third-party behavioral tracking.

COPPA (Children Online Privacy Protection Act)

Does APP get information from children?

The Children's Online Privacy Protection Act put parents in control. APP does not knowingly get personal information from children under the age of 13. In the event that it has come to our knowledge that we have acquired personal information from a child that is younger than 13 years of age, we will take necessary measures to take out that information from our systems. If you are under the age of 13, please do not provide any personal information through the Site, Service, App, and/or Software. We also encourage parents and their legal guardians to closely monitor their children's Internet usage. Another way to enforce this Policy is by informing their children to never provide any personal information through the Site, Service, App, and/or Software without their permission.

Data transfer, storage, retention, and deletion

Where is my Information stored when shared with APP**?**

All information shared to APP will be transferred to, processed, and stored in the United States. Whenever you use our Software on any of your device, User Content you save will be kept locally on that specific device and then synced with our servers. But, if you post or transfer any Information to or through our Site, App, Software, and/or Services, that means you are giving consent to such Information, including Personal Data and User Content, being hosted and accessed in the United States.

How safe is my Information?

APP is dedicated to protecting the security of your Information and takes necessary precautions to protect it. However, know that Internet data transmissions, whether it is wired or wireless, cannot be guaranteed to be 100% safe and as a result, we cannot ensure the security of Information you transmit to us, including Personal Data and User Content; therefore, you acknowledge that you do so at your own risk.

We at APP use industry-standard encryption to safeguard your data in transit. This is commonly referred to as secure socket layer ("SSL") technology or also known as transport layer security ("TLS").

By the time we receive your data, we keep it on our servers using a combination of physical, technical, and logical security measures. The security of the data stored locally in any of our Software installed on your device requires that you make use of the safety features of your device. It is highly recommended that you take the necessary steps to secure all devices that you use in connection with our Site, Software, App, and Services.

If APP learns of a security system breach, we may send you a notification to provide information on protective steps, through the email address that you have provided to us. We may also post a notice on the Site to inform our users.

How can I erase my Personal Data from APP?

Description

Notebook AI – Smart Note Taker
Transform documents, PDFs, images, audio recordings, and ideas into organized notes, quizzes, flashcards, summaries, transcripts, and study guides—all powered by AI.
Whether you're a student, teacher, researcher, or lifelong learner, Notebook helps you understand information faster and retain knowledge more effectively.
AI Notes & Summaries
Upload a PDF, image, or document, or record your voice to instantly generate: • Structured AI Notes • Smart Summaries • Key Points • Study Guides • Frequently Asked Questions (FAQ)
AI Quiz Generator
Create personalized quizzes from any topic or uploaded content in seconds. • Generate multiple-choice quizzes • Choose your preferred difficulty level • Select the number of questions • Learn through detailed answer explanations
AI Flashcards
Convert your study material into interactive flashcards. • Study with flip-card learning • Reinforce important concepts • Build custom decks from documents or notes
AI Transcription
Turn voice recordings into accurate text. • Record lectures and meetings • Generate searchable transcripts • Create notes directly from audio
Chat with Your Notes
Ask questions about your uploaded documents and receive AI-powered answers based on your content.
Multiple Ways to Create
Notebook works the way you learn. • Upload PDF documents • Import images • Record voice notes • Type any topic or prompt
Review & Learn
Every generated quiz includes detailed explanations so you understand not only the correct answer, but why it's correct.
History & Progress
Your generated notes, quizzes, flashcards, transcripts, and study sessions are saved automatically, making it easy to revisit and continue learning.
Perfect For
• Students • Teachers • Researchers • Professionals • Exam preparation • Lecture notes • Self-learning
Premium Subscription
Unlock unlimited access to all AI features with a Weekly, Monthly, or Yearly subscription.
Free users can try the app with limited AI generations before upgrading.

Appendix — the privacy policy linked from the listing as displayed

Full-page browser capture of https://sites.google.com/view/quiznovaai/privacy, taken 2026-11-04 12:08:22 UTC. Cookie-consent overlays (the host's, not the page's content) were hidden before the capture, and Google pages were opened in English.

AI Data Processing and Third-Party Sharing

Our app, **AutoQuiz AI – AI Quiz & Learning App**, includes AI-powered features that provide explanations for quiz questions, generate learning insights, and assist users in understanding concepts more effectively.

To enable these features, we may send limited user-provided content to a third-party AI service **only after user interaction with AI features**.

What Data We Collect and Send

When you use AI-powered features (such as AI explanations), we may collect and transmit:

- Quiz-related input (such as selected answers or requested explanations)
- Text input you provide (if applicable)
- AI-generated responses returned by the system
- Technical request data (such as timestamps and basic diagnostics)

If your input contains personal information, that information may be included in what is sent.

Who Receives the Data

We share this data with:

- **OpenAI (third-party AI service provider)** via secure API, solely to generate explanations and learning content

Why We Use This Data

We use this data only to:

- Provide AI-generated explanations for quiz questions
- Enhance learning experience and understanding
- Improve the relevance and accuracy of AI responses
- Enable features such as AI-assisted quizzes and flashcards

User Permission and Controls

- AI processing occurs only when you actively use AI features
- If you choose not to use AI features, no data is sent to third-party AI services
- You may control or limit AI usage through app settings (if available)

Data Retention and Protection

- We limit data sharing to what is strictly necessary for functionality
- We do **not store your AI inputs or generated responses longer than required** to deliver the service

- Data is transmitted securely using industry-standard encryption
- Third-party providers are required to maintain strong data protection standards

Other Uses

- We do **not sell your personal data**
- We do **not use your data for advertising or marketing purposes**
- We do **not use your data outside the scope of app functionality**

AI Disclaimer

AI-generated explanations are provided for educational purposes only and may not always be accurate. Users should verify important information independently.

Contact

If you have any questions about this policy or your data, contact us at:

Description

QuizLM turns what you're already studying into flashcards you'll actually remember.

Paste your lecture notes, drop in a photo of a textbook page, or import a PDF. QuizLM reads it on your Mac and builds a clean study set in seconds. Nothing to study from yet? Type a topic and get a set built for you.

MAKE A STUDY SET IN SECONDS
- Paste notes, or import images and PDFs
- Pages are read on-device, so your material never leaves your Mac
- Or start from a topic — "Photosynthesis", "Newton's laws" — and get cards instantly
- Three card styles: term and definition, question and answer, or fill in the blank
- Review and remove any card before you save the set

STUDY THE WAY MEMORY WORKS
- Flip-card sessions scheduled by spaced repetition
- Rate each card Again, Hard, Good or Easy and QuizLM plans the next review

• Track mastery for every set
• Hear any card read aloud

QUIZ YOURSELF, THREE WAYS
• Multiple choice, written answer, or true or false
• Every question is built from your own cards
• Typed answers are graded leniently, so a small typo still counts
• Finish with a score and a clear sense of what to review next

SIX STUDENT TOOLS, BUILT IN
• Focus Timer — Pomodoro sessions with breaks and session stats
• Planner — assignments and exams with due dates and priorities
• Notes — a quiet place to write, with read aloud
• GPA Calculator — track your average on a 4.0 scale
• Unit Converter — length, mass, temperature, volume, time, data, speed and area
• Citations — APA, MLA and Chicago, formatted and ready to paste

MADE FOR MAC
• Native, fast and built for macOS
• Your library is stored on your Mac
• Reading images and PDFs happens on-device

TRY IT FREE
Your first study set is on us. QuizLM Premium unlocks unlimited generation, quizzes and every student tool.

SUBSCRIPTION
QuizLM Premium is available weekly, monthly or yearly. Payment is charged to your Apple Account at confirmation of purchase. A subscription renews automatically unless it is turned off at least 24 hours before the end of the current period, and your account is charged for renewal within 24 hours of the end of that period. Manage or cancel your subscription in Settings after purchase. Any unused portion of a free trial is forfeited when you buy a subscription.

Last updated 22 August 2026

This Privacy Policy applies to the iOS app published by David Cederbaum on the Apple App Store ("the App"), and explains how it handles information.

The short version: the App does not collect, store, transmit, or share any personal data. Nothing you do in the App is sent anywhere.

Information We Do Not Collect

We do not collect, and have no ability to access, any of the following: your name, email address, phone number, or postal address; your location or GPS data; your contacts, photos, calendar, health data, or files; device identifiers, advertising identifiers (IDFA), or IP address; usage analytics, crash reports, or behavioural data; or any content you create or enter into the App.

The App contains no analytics SDK, no advertising SDK, no tracking pixels, and no third-party data collection tools of any kind.

Data Stored on Your Device

Any settings, preferences, or content you create in the App are stored locally on your device only. This data never leaves your device, is never transmitted to us or to anyone else, and is not accessible to us. If you delete the App, this locally stored data is removed with it. You can also clear it at any time from within the App or through your device's storage settings.

No Third-Party Sharing

Because we do not collect any data, we have nothing to sell, share, rent, or disclose. The App does not share user data with analytics providers, advertising networks, data brokers, third-party SDKs, or any parent, subsidiary, or other related entity.

No Tracking

The App does not track you across apps or websites owned by other companies. We do not request permission under Apple's App Tracking Transparency framework, because we have no need for it.

Apple and the App Store

Downloading the App from the App Store is a transaction between you and Apple. Apple may collect information about that transaction, such as purchase and download records and aggregated, anonymised App Analytics, under Apple's own Privacy Policy (see apple.com/legal/privacy). We receive only anonymised, aggregated statistics from Apple, such as a total number of downloads. That information cannot identify you.

Children's Privacy

The App does not collect personal information from anyone, including children under the age of 13, or the equivalent minimum age in your jurisdiction. We comply with the Children's Online Privacy Protection Act (COPPA) and equivalent laws by design: there is no data to collect, and no mechanism through which a child could disclose personal information to us.

Data Retention and Deletion

We do not retain any user data, because we do not collect any. Data stored locally on your device is under your control and is deleted when you delete the App.

Your Rights

Depending on where you live, you may have rights under laws such as the EU and UK General Data Protection Regulation (GDPR) or the California Consumer Privacy Act (CCPA and CPRA) to access, correct, delete, or port your personal data, or to opt out of its sale. Because we hold no personal data about you, there is nothing for us to provide, correct, delete, or sell. We have never sold or shared personal information. If you would like written confirmation of this for your own records, email us and we will

respond.

Security

Because no data is transmitted to or stored on our servers, there is no server-side data that could be exposed in a breach. Data on your device is protected by your device's own security features, including your passcode, Face ID or Touch ID, and iOS encryption.

Changes to This Policy

If the App ever changes so that it does collect data, we will update this policy, change the date at the top of this page, and clearly describe what is collected and why before the change takes effect. We encourage you to review this page periodically.

Contact Us

Questions about this policy? Email david_cederbaum@icloud.com and we will respond, normally within five business days. A postal address is available on request.

Description

Notebook is your AI research and study partner. Add your sources — PDFs, websites, pasted text, research topics — and Notebook answers only from them, with numbered citations you can trace back to the exact source.

No hallucinated facts. No generic answers. Your sources, understood.

GROUNDED CHAT
• Ask anything — every answer cites its sources inline
• A legend under each reply maps every citation to the source it came from
• Streaming answers, beautiful markdown, one-click save to notes

STUDIO — ONE CLICK FROM SOURCES TO STUDY MATERIAL
• Flashcards — an active-recall deck with flip, shuffle and mastery tracking
• Quiz — multiple choice with explanations and a score to beat
• Audio Overview — two AI hosts discuss your sources, podcast-style
• Video Overview — narrated slides, auto-generated
• Reports — study guide, briefing, FAQ and timeline
• Mind Map, Infographic, Data Table and Slide Deck

BUILT FOR RESEARCH
• Fast or Deep Research: type any topic and get a dense, sourced note
• Import PDFs (with text extraction), websites, markdown and clipboard text
• Everything organized into notebooks with search, sort and notes

DESIGNED FOR MAC
• A fast, native app with a clean three-panel layout
• Gorgeous light and dark appearance
• Your library stays on your Mac; answers are generated securely in the cloud

PREMIUM
Unlock unlimited Deep Research, longer audio overviews, unlimited video and slides, and bigger decks. Weekly or yearly — cancel anytime in the App Store.

Notebook can make mistakes — always double-check important answers against your sources.

User reviews mentioning possible fraud or deception (1)

Beware this is not Google Notebook LM

1/5 stars · 2026-08-21 · Dr Maurice Perry · US App Store

⚠ Be Careful — This Is NOT Google NotebookLM

I purchased this software believing it was Google NotebookLM because the presentation, name, and marketing gave me the impression that it was the same type of product. After purchasing it, I discovered that this is not Google NotebookLM and does not provide the same experience, features, or integration that I was expecting.

I was specifically looking for Google’s NotebookLM capabilities, including the ability to upload source materials and create high-quality AI-generated audio discussions and research summaries. This product did not meet those expectations.

The biggest issue is the confusion between this product and Google’s official NotebookLM service. Customers searching for Google NotebookLM should carefully verify the developer, website, and product details before paying for a subscription.

I hope this review helps others avoid making th …

// WHAT I DO

Services

01 **Native App Development**

iOS with Swift/SwiftUI and Android with Kotlin. Built for performance, accessibility, and the platform's own conventions.

02 **Web & Progressive Web Apps**

Fast, responsive front-ends in TypeScript. Server and hosting on Firebase, deployed continuously.

03 **Product & Interface Design**

From wireframe to shipped screen. Minimal, legible interfaces that put the content first.

04 **Backend & Cloud**

Auth, databases, functions, and realtime sync with Firebase and friends. Secure by default, scalable when you need it.

// ABOUT

Less, but better.

I'm Kanjan, an independent app developer who believes the best software gets out of your way. I've spent years shipping products for startups and solo, and I've learned that restraint is a feature.

Every project starts the same way: understand the one job the app needs to do, then remove everything that isn't that. The result is software that feels fast, honest, and quietly reliable.

Privacy Policy

LAST UPDATED: 7 JULY 2026

This Privacy Policy explains how **Kanjan AI** ("Kanjan AI", "I", "me", or "we") collects, uses, discloses, and safeguards your information when you visit this website or use any application, product, or service I provide (collectively, the "Services"). I take your privacy seriously and design my apps to collect as little data as possible. By using the Services, you agree to the practices described in this policy.

Contents

1. 1. Information I Collect
2. 2. How I Use Information
3. 3. Legal Bases for Processing
4. 4. How Information Is Shared
5. 5. Cookies & Analytics
6. 6. Data Retention
7. 7. Data Security
8. 8. Your Rights & Choices
9. 9. Children's Privacy
10. 10. International Transfers
11. 11. Third-Party Services
12. 12. Changes to This Policy
13. 13. Contact

1. Information I Collect

I aim to minimize the data I collect. Depending on how you use the Services, this may include:

Information you provide

- **Contact details** — such as your name and email address when you email me or submit an inquiry.
- **Account data** — where an app requires an account, a username, email, and authentication credentials (passwords are never stored in plain text).
- **Content you create** — data you enter into an app (for example, tasks, notes, or entries). Where possible, this stays on your device or in your own private cloud account.

Information collected automatically

- **Device & usage data** — such as device type, operating system version, app version, and anonymized crash or performance diagnostics.
- **Log data** — such as IP address, browser type, and pages visited, collected by hosting infrastructure for security and reliability.

2. How I Use Information

I use the information I collect to:

- Provide, operate, and maintain the Services;

- Respond to your inquiries and provide support;
- Diagnose crashes, fix bugs, and improve performance;
- Develop new features and improve existing ones;
- Protect against fraud, abuse, and security threats; and
- Comply with legal obligations.

I do **not** sell your personal information, and I do not use your content to build advertising profiles.

3. Legal Bases for Processing

Where the EU/UK General Data Protection Regulation (GDPR) applies, I process personal data under one or more of the following legal bases:

- **Consent** — where you have given clear permission;
- **Contract** — where processing is necessary to deliver a service you requested;
- **Legitimate interests** — such as keeping the Services secure and improving them; and
- **Legal obligation** — where processing is required by law.

4. How Information Is Shared

I share personal information only in limited circumstances:

- **Service providers** — trusted vendors (such as hosting and cloud infrastructure) who process data on my behalf under confidentiality obligations.
- **Legal reasons** — where required to comply with applicable law, regulation, legal process, or an enforceable governmental request.
- **Business transfers** — in connection with a merger, acquisition, or sale of assets, with notice to affected users.
- **With your consent** — for any other purpose disclosed to you at the time.

5. Cookies & Analytics

This website uses minimal cookies necessary for its operation. I do not use invasive third-party advertising trackers. If analytics are used, they are configured to be privacy-respecting and, where feasible, to anonymize IP addresses. You can control or disable cookies through your browser settings; some features may not function correctly without them.

6. Data Retention

I retain personal information only for as long as necessary to fulfill the purposes described in this policy, to comply with legal obligations, resolve disputes, and enforce agreements. When data is no longer needed, it is deleted or anonymized. You may request deletion of your data at any time (see Section 8).

7. Data Security

I use reasonable technical and organizational measures to protect your information, including encryption in transit (HTTPS), access controls, and secure authentication. However, no method of transmission or storage is completely secure, and I cannot guarantee absolute security. Please protect your account credentials and notify me of any suspected unauthorized access.

8. Your Rights & Choices

Depending on your location, you may have the right to:

- Access the personal data I hold about you;
- Correct inaccurate or incomplete data;
- Delete your personal data ("right to be forgotten");

- Restrict or object to certain processing;
- Request portability of your data; and
- Withdraw consent at any time, without affecting prior processing.

To exercise any of these rights, email kajan.navaratnam@icloud.com. I will respond within the timeframe required by applicable law.

9. Children's Privacy

The Services are not directed to children under 13 (or the minimum age required in your jurisdiction), and I do not knowingly collect personal information from them. If you believe a child has provided me with personal data, please contact me and I will delete it.

10. International Transfers

Your information may be processed in countries other than your own, where data protection laws may differ. Where required, I put in place appropriate safeguards (such as standard contractual clauses) to protect your information during such transfers.

11. Third-Party Services

The Services may rely on third-party platforms — including cloud hosting and infrastructure provided by Google Firebase, and app distribution through the Apple App Store and Google Play. These providers have their own privacy policies governing their handling of data. Links to external sites are provided for convenience; I am not responsible for their content or privacy practices.

12. Changes to This Policy

I may update this Privacy Policy from time to time. When I do, I will revise the "Last updated" date above and, where changes are material, provide additional notice. Your continued use of the Services after changes take effect constitutes acceptance of the revised policy.

13. Contact

If you have questions, concerns, or requests regarding this Privacy Policy or your personal data, please contact:
